

外国最近刊行誌参考記事目次

Journal of the Iron and Steel Institute: 182
(1956) Part 4, April.
The Mechanical Properties of Carbon Steel Wire at Low Temperature. *R. W. Nichols.* p. 337
The Hardness of Some Carbon and Low-alloy Steels at Low Temperature. *R. W. Nichols.* p. 348
Stress/Strain Curves of Some Metals and Alloys at Low Temperatures and High Rates of Strain. *H. G. Baron.* p. 354
The Effects of Gravity in the Solidification of Steel. *B. Gray.* p. 366
Effect of Phosphorus Content on Impact Value of Fully and Partially Hardened and Tempered Mn-Mo Steels. *N. P. Allen and C. C. Earley.* p. 375
Chromic-Acid-Acetic-Anhydride "Explosion". *A. E. Dawkins.* p. 388
An Effect of Hydrogen on the Hardness of Mild Steel. *H. G. Vaughan and M. E. de Morton.* p. 389
Steel Processing: 42 (1956) No. 4, April.
Design of Heavy Forging Presses. *H. J. Kalberkamp.* p. 201
Wire Since 1831-A Short Story of An Industry's Growth. p. 206
Screw Machine Parts-Hints on Their Specification. p. 211
Continuous Casting of Non-Ferrous Strip. p. 212
The Atomic Age and Metals Industry. *Eugene B. Hotchkiss.* p. 214
The Metallographic View-XXI-Metallography of Carburized Cases. *Howard E. Boyer.* p. 217
Stainless Steel Production Breaks All Records. p. 219
Safety Glasses Protect Only When Worn. p. 221
Integral Tubes Now Produced in Single Sheets. p. 222
Angular Fixtures and Blocks Aid in Grinding Angles. p. 224
Some Aspects of Furnace Doors, Construction

and Operation-Part II. *John E. Hyler.* p. 225
Steel Processing: 42 (1956) No. 5, May.
HPL Manufacturing Company—Stampings in Small Lots. *Harry E. Trout, Jr.* p. 363
The Engineer and the Future. *W. C. Newberg.* p. 269
Causes and Control of Distortion During Machining of Aluminium-Alloy Forgings. *Loyl R. Thomas and Harry J. Gilliland.* p. 274
The Metallographic View-XXII-Metallography of Quenched Carburized Cases. *Howard E. Boyer.* p. 279
J & L Operating Galvanizing Line. p. 280
Golden Anniversary of American Electric Steel-Making. p. 282
Automatic Carbon Control for Batch-Type Furnaces. *T. N. Duncan.* p. 283
Iron and Steel Engineer: 33 (1956) No. 3, March.
Reducing Roll Breakage. *Charles F. Peck, Jr.* p. 53
Residual Stresses in Double-Pour, Cast Iron Work Rolls. *Anthony M. Digioia, Jr. and Charles F. Peck, Jr.* p. 58
Roll Temperature Study on a Hot Strip Mill. *Albert M. Belansky and Charles F. Peck, Jr.* p. 62
Developments in Shot Blasting Strip Steel. *K. R. Keska.* p. 65
Babbitt's Contribution to Reserve Mining Co.'s Taconite Operations. *Robert J. Linney.* p. 73
Extrusion of Metals. *G. A. Moudry.* p. 79
Electrical Equipment for Auxiliary Drives of Hot Strip Mills-Part III. *S. H. Williamson.* p. 84
Seamless Pipe for the Oil Fields. *C. C. Crawford.* p. 96
Design Factors for Steel Mill Tractors. *J. A. Draxler.* p. 100
Recent Developments in European Steel Practices. *H. B. Emerick.* p. 105
Electrical Aspects of Adjustable Voltage Ore Bridges. *E. H. Gautier.* p. 110
Automation's Effect on Quality Requirements in the Steel Industry. *Robert Guthrie.* p. 116

- Instrumentation and Control in Steel Plants.
J. R. Green. p. 121
- Your Association. *W. J. McClung.* p. 129
- Stainless Steel Production Breaks All Records.
p. 132
- Billet Cutting is Made Easy. *V. E. Lysaght.*
p. 134
- Spang-Chalfant Installs Automatic Mechanized
Heat-Treating Equipment. p. 138
- Coagulant Aid Saves Alum. p. 143
- Metallurgia, 53** (1956), Feb. No. 316.
- Foundry Conditions. p. 55
- New Margam Blast Furnace in Europe's Biggest.
p. 83
- Correspondence: The Solidification of Cast Iron.
pp. 84~85
- Liquid-Liquid Extraction Procedures in Inor-
ganic Analysis—A Review of Practical Appli-
cations with Particular Reference to Metallur-
gical Analysis. (I). *T. S. West.* pp. 91~96
—, **53** (1956), March, No. 317
- Mechanical Handling. p. 97, 116
- A Mains Frequency Coreless Induction Melting
Furnace. Consideration Affecting Design.
pp. 99~102
- Electrical Plant for the Metal Industries. Pro-
gress in 1955 Reported. (I) pp. 113~116
- Hot Work Die Steels. pp. 119~121
- A Semi-Micro Method for the Determination of
Carbon in Iron and Steel. *P. H. Scholes.*
pp. 129~131
- Liquid-Liquid Extraction Procedures in Inor-
ganic Analysis—A Review of Practical Appli-
cations with Particular Reference to Metallur-
gical Analysis. (II). *T. S. West.* pp. 132~134
- Correspondence; Spectrographic Electrode Hol-
der; Plotting of Inverse Rate Cooling Curves;
The Isolation of Silicon Nitride from a Com-
mercial 4% Silicon Steel. pp. 135~136
—, **53** (1956), April, No. 318
- New Tandem Cold Strip Mill at Ebbw Vale.
pp. 139~142
- The Development of Ventilating Machines.
P. H. Holt. pp. 153~156
- New U. S. Metals and Ceramics Laboratory.
pp. 163~166
- Electrical Plant for the Metal Industries. Pro-
gress in 1955 Reported (II) pp. 167~170
- The Mains Frequency Coreless Induction Melting
Furnace. Practical Considerations and
Applications. pp. 171~174
- Liquid-Liquid Extraction Procedures in Inor-
ganic Analysis—A Review of Practical Appli-
cations with Particular Reference to Metallur-
gical Analysis. (III). *T. B. West.* pp. 185~
188
- Stahl u. Eisen: 76** (1956) Heft 9
- Aus der Tätigkeit des Vereins Deutscher Eisen-
hüttenleute im Jahre 1955. S. 521~551
- Arbeitsvorbereitung und Betriebsüberwachung
in einer Gießerei. *E. von der Horst.* S. 552~558
- , **76** (1956) Heft 10
- Die außenwirtschaftlichen Beziehungen der
westdeutschen Stahlindustrie. *P. Keller.* S.
585~587
- Entwicklung der Eisenerz-Pelletisierung. *K.
Meyer.* S. 588~595
- Zustellung der Konverter im Blasstahlwerk in
Donawitz. *A. Wegscheider.* S. 595~599
- Arbeitsvorbereitung und Betriebsplanung in
einem Grobblech-Walzwerk. *H. Friedrich.*
S. 599~613
- Elektrisch beheizte Tieföfen. *H. Langenbach.*
S. 614~618
