

“Tetsu-to-Hagané”

Vol. 48, No. 7, June, 1962

Contents

Foreword

Competition and Co-operative Research among Industries.

..... *Takehiko YASUHARA*...837

Review

On Formation of Fayalite by $Fe_3O_4-SiO_2$ Solid Phase Reaction

during a Sintering Process. *T. IKENO and Y. ITOH*...839

On the Positive Way to Prevent the Occurrence of the

Defect of a Billet. (Study on continuous casting of steel—VII)..... *K. USHIJIMA*...845

On the Relation between Sand Marks and Top-and

Bottom-Teeming Procedures.

(Studies on the nonmetallic inclusions, especially sand marks in steel—IV)

..... *K. NARITA and A. MIYAMOTO*...850

Effect of Heating Conditions and Ar'' Transformation on Residual

Stress of Induction-Hardened Steels. *H. HOMMA*...856

Relation between Slack-Quenched Heterogeneous Structure

and Mechanical Properties of Spring Steel.

..... *M. UCHIYAMA, K. KAMISHOHARA and F. SEKI*...864

Effect of Various Elements on Properties of 19Cr-10Ni Type

Nonmagnetic Steel.

(Study on high tensile nonmagnetic steel—I)

.....(Late) *N. YAMANAKA, K. KUSAKA and A. TONOOKA*...871

Effect of Simple or Combined Addition of Mo, Si and Cu

of Mechanical Properties and Corrosion Resistance of

30Ni-20Cr Stainless Steels.

(Study of 30Ni-20Cr stainless steels—I) *S. INOUE*...877

Technical Review

On the Recent Tool Materials.....(Late) *Sadao KOSHIBA and Kiichiro SHINJI*...883

Abstracts.....910, Contents of the Recent Articles Published in Japan

and Overseas.....914, Miscellaneous:—News.....917, Patent Section

.....919, Proceedings of the Institute.....922, Notices to Members.....N23
