

“Tetsu-to-Hagané”

Vol. 48, No. 8, July, 1962

Contents

Foreword

An Opinion on Utilization of Laterite. *Kenge ONO*...923

Technical Papers

Activity of Carbon and Oxygen in Liquid Iron.
..... *S. BAN-YA* and *S. MATOBA*...925

On the Homogeneity of the Composition and the
Constitution of Billets. (Study on continuous casting of steel—VII)
..... *Y. AKETA* and *K. USHIJIMA*...933

Effect of Deformation in the Metastable Austenite Conditions
on the Secondary Hardening of 13 Cr Stainless Steel. *Y. HOSOI*...940

On the Mechanism of Graphitization of High-Carbon Steel.
(Study on the graphitization of high-carbon steels—I)
..... (Late) *N. YAMANAKA* and *K. KUSAKA*...946

Effect of Nonmetallic Inclusions on Sensitivity of
Steel to Induction-Hardening Crack. *H. HOMMA*...953

New Secondary Phase in the γ Type Fe-Co-Cr-Ni Base
Heat-Resisting Alloy.
(Studies on tempering process of the γ type heat-resisting alloys—VI)
..... *T. MASUMOTO*...959

On Erosion of Steel Plates in a Molten Zinc Bath. *T. YAMANE*...967

Technical Review

Development Trends of Spring Steels in Recent Years.
..... *Michira UCHIYAMA*...972

Special Lecture

International Competitive Power of Japanese Iron
and Steel Industry. *Yataro NISHIYAMA*...983

Reasonable Application of Incompletely Utilized Iron
Resources, i. e., Pyrite Cinders, Laterite, etc, from
a Viewpoint of Physical Chemistry of Process Metallurgy.
..... *Kōkichi SANO*...990

Abstracts.....1000, Contents of the Recent Articles Published in Japan
and Overseas.....1005, Miscellaneous:—News.....1007, Patent Section
.....1009, Proceedings of the Institute.....1012, Notices to Members.....N25

Overseas membership: Annual charge: \$ 8.00 (incl. postage) Entry fee: \$ 1.00
