## Contents

### Foreword

How about a Qualifying Examination System for Metallurgical Engineers. .... *Takahiro MORIMUNE*...1643

### Technical Papers

- Influence of Ore Size and Contact Time on Ore Reduction.  
(Reduction test of the ore bed—I)..... *T. SŌMA*...1645
- Dissolution Velocity of Oxygen from H<sub>2</sub>O-Ar Atmosphere into Molten Iron.  
(On the kinetics of gas/molten iron reactions—I)..... *K. ITOH and K. SANO*...1652
- Application of the Quick Immersion Technique for Temperature Measurement of Steel Bath in Ladle.  
(On the continuous immersion pyrometry of molten steel—II) ..... *S. ONODERA, Y. ARAKIDA and N. HIRAOKA*...1658
- On Non-metallic Inclusions and Their Distributions in Low Carbon Rimmed Steel Ingots by Slime Method.  
(Study of non-metallic inclusions in low carbon rimmed steel—I) ..... *K. MORINAGA, A. ŌBA and Y. ITOH*...1663
- On the Interior Temperature Distribution of Ingots during Heating Process.  
(Study of thermal stress cracks in steel ingots—I) ..... *T. HARA*...1669
- A Study on a Continuous Wire Rod Rolling. .... *S. DAZAI*...1666
- Study on Improvement in the Hot Workability of High-Alloy Steels.  
..... *T. NAKANO, H. TAKADA, K. NARITA and K. UKIHASHI*...1681
- Effect of Uranium on the Properties of Steel.  
(Studies on special elements in steel—I) ..... *K. NARITA, A. MIYAMOTO and E. TAKAHASHI*...1686
- Influence of Nitrogen on Properties of 18-7 Stainless Steels.  
..... *M. OKAMOTO, R. TANAKA and R. FUJIMOTO*...1694

### Special Lecture

Report of Inspection on the Iron and Steel Industry in West Europe. .... *Tokushichi MISHIMA*...1701

### Report of Joint Research Society, The Iron and Steel Institute of Japan

Recent Technical Development in Tube Making Processes. .... *Kaoru HARADA*...1714
