Vol. 50, No. 14, Dec., 1964

Contents

Foreword

In Retrospect 1964.....*Seita SAKUI*...2283

Technical Papers

Process of Reduction and the Behavior of Carbon-Reducing Agent in the Kiln.

(Study on the pre-reduction of iron sand in a rotary kiln—II).....*H. ARAKAWA*...2285

Operation of Foundry Pig Iron with Self-Fluxing Sinter in the Small Blast Furnace.

..... *M. YASUTAKE, K. SATO, H. MORITA, S. MURAO and H. SASAGAWA*...2293

On the Primary Inclusions in Steels of Fe-Cr-O System.

..... *A. ADACHI and N. IWAMOTO*...2302

On the Behavior of Sulfides and Relative Nonmetallic Inclusions Formed in Steel.

..... *T. ARAKI, H. HIRAI, Y. MATSUSHITA and T. KARASUDANI*...2310

Study on the Rimmed Ingot Which Evolved Gas under Reduced Pressure.

..... *S. WATANABE, H. WATANABE, K. ASANO and M. NAKAYAMA*...2325

Effect of Lead on the Hot and Cold Working Characteristics of Low Carbon Steels.

..... *A. KOYANAGI and T. ARAKI*...2334

Controlled Atmospheres in the Sintering Furnace for Sintered

Iron Products. *K. SHOJI and S. YAMADA*...2345

Technical Review

Recent Studies on yield Points in Iron and Other Materials.

..... *Hideji SUZUKI*...2351

Special Lecture

On the Impact Tensile Properties of Iron and Steel. *Seita SAKUI*...2369

Abstracts.....2387, Contents of the Recent Articles Published in Japan and Overseas.....2391, Patent Section.....2394, Miscellaneous:—News.....2396, Proceedings of the Institute.....2398, Notices to Members.....N83, Annual Index to "Tetsu-to-Hagané" 1964.....Last Pages.
