目 次

第 4 卷・第 2 号 (Vol. IV, No. 2, 1964)

### Presidential Address

A Description on the Activities of The Iron and Steel Institute of Japan.  
.....By Masao Yukawa...108

### Foreword

Present and Future of Iron Ore in Japanese Iron Industry.  
..... By Kōsuke Kikuchi...110

Institute Announcement and Reports —Spring General  
Assembly and 67th Grand Lecture Meeting— .....112

Lecture Subjects for the Preprints for the 67th Grand Lecture  
Meeting of The Iron and Steel Institute of Japan. ....115

### Research Articles

The Study of Gas Utilization Coefficient and Carbon Deposition on  
Ore Bed Reduction. .... By Tanekazu Sōma...121

The Application of Oxygen Concentration Cells with the Solid  
Electrolyte, ZrO<sub>2</sub>-CaO to Basic Research Works in Iron and  
Steel Making. ....By Yukio Matsushita and Kazuhiro Gotō...128

Studies on the Immersion Pyrometry of Steel Bath in the Ladle for  
the Severe Control of Casting Temperature.  
..... By Shinsaku Onodera, Yutaka Arakida and Noboru Hiraoka...139

Study on a Continuous Wire Rod Rolling. ....By Saburō Dazai...148

The Effect of Uranium on Iron and Steel.  
..... By Masayoshi Hasegawa and Ichirō Onoda...154

### Panel Discussion

On Melting of High Carbon Steel by Oxygen Converter Process. ....165
