

"Tetsu-to-Hagané"

Vol. 50, No. 5, May, 1964

Contents

An Inaugural Message from the President. Masao YUKAWA...741

Technical Papers

Comparative Studies on Sintering and Pelletizing.

.....K. MORINAGA, T. IKENO and I. IWASAKI...743

Application of Water-Cooling Method to the Oxygen Converter.

(Study on a permanent-wall-type furnace with compulsory—V)

..... R. SATO and N. TABATA...753

Study on the Fog-Quenching Method.

..... T. NAKANO, H. TAKADA, T. GOTO and I. OKA...761

On the Hardness of the Low Carbon Steel Sheet after

Continuous Annealing.E. SHUTO...766

Growth of Cast Iron in Austenite Region.K. NAGAOKA...773

Effects of Chemical Compositions and Structural Condition

on Properties of Austenitic and Ferritic Cast Stainless Steels.

..... S. INOUE and T. TSUCHIYA...781

On the Extraction of N and CO Gases by the Vacuum Fusion Method.

(Studies on the analysis of gases in steels by the vacuum fusion method—I)

..... T. KOIZUMI, F. TSUGANE and M. KAMAKURA...787

Technical Review

X-ray Microanalyser and Its Application for Study on

Ferrous Materials. Iku UCHIYAMA...794

Report of Joint Research Society,

The Iron and Steel Institute of Japan

Automatic Control and Automatic Change of Hot Stove.

(Measurement and control of blast furnace)

..... Kanichiro KATSURA and Takashi ISOBE...813

Letters to the Editor

On the Constitution of Phosphor Contained in Undersea Iron Sand.

..... T. SAKATA and T. YAGI...830

Abstracts.....832, Contents of the Recent Articles Published in Japan and Overseas.....835, Patent Section.....838, Miscellaneous:—Reports of the 67th Grand Lecture Meeting of the Institute.....840, News.....865 Proceedings of the Institute.....867, Notices to Members.....N33

Overseas membership: Annual charge: \$ 10.00 (incl. postage) Entry fee: \$ 1.00
