

“Tetsu-to-Hagané”

Vol. 50, No. 8, July., 1964

Contents

Foreword

Reserches and University Education.....*Kaneo YOSHII*...1159

Technical Papers

- On the Rates of Evaporation of Alloying Elements in Molten Iron.
(Studies on the kinetics of gas-molten iron reactions—IV)
.....*K. ITO* and *K. SANO*...1161
- Standard Free Energies for Formation of Iron Oxides
and Other Metal Oxides.
(Study on Oxygen concentration cells at high temperature—III)
..... *K. GOTO* and *Y. MATSUSHITA*...1167
- The Rate of Solution of Sintered SiC by Liquid Iron.
..... *S. MINOWA* and *M. KOSAKA*...1175
- Hot Impact Extrusion of Steel.
.....*T. KAWADA*, *M. SUZUKI*, *T. TAKEUCHI*, *T. KUMABE* and *S. IKEDA*...1182
- On the Quenching Effects of the Mixture of Medium-Fraction
Mineral Oils, Rape Seed Oil and Fatty Acid Ester.
(A study on the quenching effects of oil for steel—V)
.....*Y. FUJIMURA* and *T. SATO*...1188
- On the Effect of Nitrogen-Absorption Treatment on Properties
of Low Ni-18Cr Stainless Steels.
..... *M. OKAMOTO*, *O. MIYAKAWA*, *T. NAITO* and *T. TSUJINO*...1195
- Some Observations on Corrosion Tests of Cr-Ni Stainless Steels.
.....*Y. OTOGURO*, *Y. KAWABE* and *R. NAKAGAWA*...1204
- Effect of Alloying Elements on Creep Rupture Strength of
NA22H at 1200°C. *S. INOUE*, *T. TSUCHIYA* and *Y. MATSUMOTO*...1210

Special Lecture

- On the Equilibrium Values of the Reaction $Al_2O_3(s) = 2Al + 3O$
Recommended by the Nineteenth Committee (Steelmaking) of the Japan
Society for the Promotion of Science. *Hiroshi SAWAMURA*...1217

Report of Joint Research Society, The Iron and Steel Institute of Japan

- Latest Developments of Middle and Small Section Mills in Japan.
.....*Kanichiro KATURA*...1221
- Modern Narrow Strip Mill.....1229

-
- Abstracts.....1266, Contents of the Recent Articles Published in Japan and
Overseas.....1270, Patent Section.....1272, Miscellaneous:—News.....1276,
Proceedings of the Institute.....1279, Notices to Members.....N49

Overseas membership: Annual charge: \$ 10.00 (incl. postage) Entry fee: \$ 1.00
