Vol. 51, No. 7, June, 1965

Contents

Foreword

- A Future Problem of Research and Technique on Iron and Steel.
..... *Takesi SUGENO*...1225

Technical Papers

- On the Agglomeration, Re-oxidation and Abnormal Phenomena in the kiln.
(Study on the pre-reduction of iron sand with a rotary kiln—IV)
..... *H. ARAKAWA*...1227
- On Measurements of Oxidation-Reduction Rate of Iron and of Oxygen Pressure in Oxide Melts.
(Study on the oxygen concentration cells at high temperature—IV)
..... *K. GOTO and Y. MATSUSHITA*...1240
- Oxidation of Molten Iron Alloys with Atmosphere.
(Studies on the kinetics of gas-molten iron reaction—V)
.....*K. ITO and K. SANO*...1252
- The Short Cutting of Spheroidizing Duration of the Ball Bearing Steel by Austempering Annealing.*E. MIYOSHI*...1260
- Identification of Non-metallic Inclusions in Steels by the Polished Thin Section and X-Ray Microanalyser.
..... *M. SASAKI, R. KUSAKA, H. HAMADA and S. MUROTA*...1267
- On the High-Temperature Strength and Structural Change of Type 316 Austenite Stainless Steel Castings.
(Study on the austenite stainless steel castings— I)
.....*Y. FUKASE, S. KATOH, N. ŌKUBO and K. IWAMOTO*...1274

Special Lecture

- Report of Inspection on the Iron and Steel in West Europe and America.*Tokushichi MISHIMA*...1283
- Conference for Application of the Fundamental Principles of Thermodynamics to Metallurgical Process.
(Based on "application of thermochemical data during stainless steel making"
F. C. Langenberg)
..... *Tasuku FUWA*...1298

Report of Committed Research

- Klinger-Kochsches Verfahren. *Rokurō SAKAGAMI*...1312

Letter to the Editor

- Some Consideration on the Mechanism of Deoxidation Reaction of Molten Steel.*K. SENDA*...1317

Special Report

- Retrospection of Production and Technique Centering Steel Ingot in Yawata Works.1319
