

# “Tetsu-to-Hagané”

Vol. 52, No. 12 November, 1966

## Contents

### Foreword

At the Age of Technical Innovation. .... *Hiroshi* YOSHIDA...1727

### Technical Papers

On the Activity of Iron Oxide in the Silica-Saturated Slags.  
..... Y. KOJIMA and K. SANO...1729  
Kinetic Study of the Decarburization of Liquid Iron. .... R. SAKAGAMI...1738  
Mass-Transfer from Solid Metal Cylinder into Liquid Metal.  
..... M. KOSAKA and S. MINOWA...1748

### Special Lecture

TATARA.....An Introduction to Traditional  
Steel Making Process of Japan. .... *Jukichi* KOZUKA...1763  
On the Future of Ironmaking. .... *Takao* SASABE...1779

### Report of Japan Society for Promotion of Science

Cooperative Study on the Scattering of Creep Rupture Life of Low  
Carbon Steel at Elevated Temperature. .... S. TAIRA...1791

---

Abstracts.....1807, Library News.....1815, Patent Section.....1817,  
Miscellaneous:—News.....1818, Notices to Members.....N113,  
Proceedings of the Institute.....N125,
