

# “Tetsu-to-Hagané”

Vol. 53, No. 13, Nov., 1967

## Contents

### Foreword

The Standpoint of Readers and Contributors of Tetsu-to-Hagané .....	Toru ARAKI...1465
---	-------------------

### Technical Papers

Mass-Transfer from Graphite Cylinder into Liquid Fe-C Alloy. ....	M. KOSAKA and S. MINOWA...1467
On Mechanism of Formation of Negative Segregation Zone (alias' Settling Crystal Zone') in Large Steel Ingot and Origin of (Macroscopic Oxide) Inclusions Appeared in This Zone. ....	Y. NAKAGAWA and A. MOMOSE...1477
Discussion .....	1509
Kinetics of Secondary Recrystallization in Silicon Iron.....	T. MATSUOKA...1526
Determination of Magnesium and Zinc in Iron and Steel by Atomic Absorption Spectrophotometry. ....	Ô. KAMMORI, I. TAGUCHI and K. YOSHIKAWA...1532

### Letter to the Editor

The Effect of Nb and Al on the Critical Temperature of the High Strength Steel.....	T. KUNITAKE...1538
---	--------------------

---

Abstracts.....	1540, Patent Section.....	1545, Reports of The 74th I. S. I. J. Meeting, Oct., 1967.....	1547, Notices to Members.....	N147, Proceedings of Institute.....	N159
----------------	---------------------------	--	-------------------------------	-------------------------------------	------
