Contents

Foreword

Creation of Technology—From Known to Unknown—Eiji MUNEKATA...1475

Technical Papers

The Effect of K_2O , Na_2O and CaO Addition to Fe_2O_3 Single Crystal
on Its ReductionS. SAYAMA, Y. UEDA, Y. NISHIKAWA, and Y. YOSHIDA...1477

Gas Flow Patterns and Pressure Profiles in Non-Uniform Packed Beds.....K. ARAKI...1485

The Structure of Molten Alkali-Metal Silicates.....Y. WASEDA and H. SUITO...1493

Secondary Cooling Pattern for the Prevention of Cracks Surface
of Continuous Casting Slab
.....T. NOZAKI, J. MATSUNO, K. MURATA, H. OOI, and M. KODAMA...1503

Toughness and Ductility of Characteristic Structure in Isothermally
Transformed Molybdenum Steel.....T. INOUE and S. KINOSHITA...1513

The Sheet Thickness Dependency of Fracture Toughness in High
Strength SteelsK. NAKASA and H. TAKEI...1523

Diffusion Layers of Electroplated Nickel on Plane Carbon Steels
.....K. OKADA and S. MATSUMOTO...1532

Corrosion of Nickel-Base Heat Resistant Alloys in Simulated VHTR
Coolant Helium at Very High TemperaturesM. SHINDO and T. KONDO...1540

Hot Corrosion Behavior of Ni-Cr-W-C Alloys in Impure He Gas
.....T. OHMURA, K. SAHIRA, A. SAKONOOKA, and N. YONEZAWA...1550

Technical Report

Application of Digital Computer to Emission Spectroscopic Analysis
..... T. SUZUKI, H. ASAKAWA, and S. NISHIYAMA...1560

Research Note

Analytical Solution of the Longitudinal Distribution of wind in
Sintering Machine.....T. MAKINO, K. ENDŌ and J. SIBATA...1567

Special Lecture

Recent Progress and Future Innovation of Japanese Iron and Steel Industry
..... S. YAMASHITA...1570

Report of the Joint Research Society of ISIJ

Report of the Plant Engineering Committee of the Joint Research
Society of ISIJY. YAZAWA...1577

The Steel Industry in China.....T. SOMA...1587

Report of International SymposiumS. TABATA...1591

Abstracts.....1593, Library News.....1599, Notice to Members.....N193
Proceedings of the Institute.....N201

Overseas membership: Annual charge: ¥6000 (incl. postage), Initiation fee; ¥600
