

“Tetsu-to-Hagané”

Vol. 63 No. 12, October, 1977

Contents

Foreword

Entropic View.....*Minoru IKEDA*...1783

Technical Papers

On the Evaluation of Mass Transfer Resistance through Gas Phase in Reduction Kinetics of Oxide Pellets.....*Y. ONO and T. JOKO*...1785

Discrimination among Conditions at Lower Part of Blast Furnace by Distribution Ratios of Si, Mn and S between Slag and Pig Iron.....*N. TSUCHIYA, S. TAGUCHI, Y. TAKADA, and K. OKABE*...1791

On the Dephosphorization of Hot Metal in the Ladle.....*K. SASAKI, Y. OHKITA, T. IKEDA, T. OKAZAKI, T. MATSUO, and A. KAWAMI*...1801

Thermodynamics of $Fe_1O-P_2O_5$ Slags Saturated with Solid Iron.....*S. BAN-YA and T. WATANABE*...1809

Calculation of Spread and Elongation of Bars in Rolling Pass Sequences Square-Oval, Square-Diamond and Round-Oval.....*Y. SAITO, M. MORIGA, and K. KATO*...1819

Effect of Cold Rolling by Grooved Rolls on the Formation of Cold Rolling Texture of 3% Si-Steels.....*M. KUMAZAWA, Y. NAKAGAWA, and T. SEKINE*...1828

Effect of Cold Rolling by Grooved Rolls on Internal Strain of 3% Silicon Steels.....*M. KUMAZAWA, K. IWAYAMA, and Y. SUGA*...1838

Effects of Grain-and Grain Boundary-Strengths on the Creep Rupture Properties of an Austenitic Heat Resisting Steel.....*M. YAMAMOTO, O. MIYAGAWA, M. KOBAYASHI, and D. FUJISHIRO*...1848

Effects of Grain-and Grain Boundary-Strengths on the Notch Rupture Properties of an Austenitic Heat Resisting Steel.....*M. YAMAMOTO, O. MIYAGAWA, M. KOBAYASHI, and D. FUJISHIRO*...1858

Study of the Microstructures and Toughness of Steels with Precipitation-Hardening Due to Cu and NiAl.....*H. YADA and M. HONDA*...1868

Influence of MnS Inclusion on Ductility and Ductile Fracture Process of High Strength Steels.....*S. OKAMOTO, F. TERASAKI, and T. KUNITAKE*...1878

Technical Report

Preparation of Thin Specimens of Chromium-Nickel Steels with Various Combinations of Carbon and Nitrogen Concentration.....*M. KIKUCHI, T. TANAKA, T. NISHIMURA, S. TAKEDA, and R. TANAKA*...1887

Research Note

Rate Equation in Multi-Interface Shell Model of Iron Oxide Pellet Reduction.....*Y. HARA*...1894

Review

Reduction of Coke Rate and New Coking Processes Using Non-Coking Coal.....*Toshio IKESHIMA*...1897

Commentaries

Energy Saving in Japanese Steel Industry.....*Tadaharu IKEDA*...1904

Process Development for Continuous Copper Smelting and Converting Process.....*Takeshi NAGANO*...1911

Special Lecture

Management of the Modernized Steel Works.....*Masumi AIHARA*...1918

Reports

Report of the 3rd ICPVT.....*Juro WATANABE*...1926

Report of the International Conference on Secondary Steelmaking.....*Tatsuro KUWABARA*...1927

Report of the Korea Iron and Steel Association Seminar.....*Shintaro TABATA*...1929

Abstracts.....1930, Library News.....1938

Notice to Members.....N211, Proceedings of the Institute.....N220

Overseas membership: Annual charge: ¥6000 (incl. postage), Initiation fee; ¥600
