

## 新刊紹介

### Special Report No. 25

## The 6th Japan-USSR Joint Symposium on Physical Chemistry of Metallurgical Processes 1977

本書は本年5月16, 17, 18日の3日間東京で開催の第6回日ソ製鋼物理科学シンポジウムの講演論文を集約したものであります。

1. 価格 会員 3,000 円 (送料 200円) 非会員 4,000 円 (送料 200円)

2. 判形 B5判 260 頁

3. 申込先・方法 100 東京都千代田区大手町 1-9-4 経団連会館

日本鉄鋼協会編集課 Tel. 03-279-6021

郵便振替, 銀行振込, 現金書留のいずれかで前納下さい。

#### 論文 (英文)

1. Wettability of Alumina by Iron Alloys and Dissolution of Alumina in Slag  
K. Ogino, A. Nishiwaki and K. Nogi
2. Formation of Non-metallic Inclusions during Deoxidation of Iron and Steel  
A. G. Gabisiani, F. N. Tavadze and G. A. Gongadze
3. Non-metallic Inclusions in Plasma ARC Remelting N. N. Rykalin and A. A. Erokhin
4. Steelmaking Process for Ball Bearing Steel Non-metallic Inclusion Life of Bearings  
A. G. Shalimov
5. Morphology and Distribution of Sulfide in Fe-Ni Alloy  
S. Maruhashi and M. Hasegawa
6. Structure's Non-homogeneity and Non-metallic Inclusions in a Large Ingot of Acidic Steel  
V. N. Lebedev, V. I. Yavojtsky, V. A. Osnovin, G. I. Speranskaya,  
G. M. Chursin, V. N. Syrov and S. I. Juliev
7. Inclusions and Mechanical Properties of Calcium Added Steel  
H. Nashiwa, A. Mori, S. Ura, T. Ikeda, H. Matsuno and R. Ishikawa
8. Chemical Reactions with Special Respect to the Formation of CO  
Blowholes during Solidification of Iron K. Mori and H. Nomura
9. Mechanism of Formation of Non-metallic Inclusions during Solidification of Steel  
N. A. Vatolin and A. A. Romanov
10. The mechanism of the Accumulation of Large Inclusions in the Sedimental  
Zone of Al-killed Ingots Y. Habu, T. Emi and H. Kitaoka
11. The Effect of Fluid Flow on the Dendritic Structure and Macrosegregation  
in Steel Ingot T. Tahahashi
12. Investigation into Out-of-Centre Segregation and Structural Strength of  
Rotor Shaft-like Machine Parts  
V. S. Dub, I. N. Stul, Ya. M. Vasil'ev, O. A. Fedorova,  
V. P. Rabinovich, A. A. Rebrik and V. I. Voropaev
13. Formation Mechanism of "A" Segregation in Steel Ingot  
K. Suzuki and T. Miyamoto
14. Electroslag Remelting of High-Manganese Austenitic Steels as a Method  
for Improving the Properties of Retaining Ring Billets  
I. N. Stul', V. A. Mirmel'shtein, N. A. Grekov, Ya. M. Vasil'ev, V. S. Dub and E. P. Silina
15. Studies of Structure and Nature of Distribution of Non-metallic Inclusions in Electroslag  
Remelted 30 T Ingot B. I. Medovar, Yu. G. Emelyanpeko, V. A. Tikhonov, S. A. Pokotilo
16. New Method of Production of Large Forged Ingots of High Purity and Homogeneity  
Yu. V. Latash, A. E. Voronin and V. A. Nikolaev
17. Non-metallic Inclusions in Continuous Cast Billet V. V. Lempitsky
18. On the Center Segregation of Continuously Cast Slab T. Kawawa
19. On the Solidification Profile and the Quality of a Soft-cooling Continuous Cast Slab  
T. Mori, K. Ayata and K. Narita
20. On Refining of Solidification Structures of Continuously Cast Slabs by Electro-  
magnetic Stirring K. Tashiro, T. Itoh, H. Maeda and T. Okajima
