

日本の印象〔随想〕	J. K. BRIMACOMBE	2598
“連続焼鈍鋼板の金属学” シンポジウム〔国際会議報告〕	須藤 正俊	2600

第 104 回講演大会記事	2602, 抄録	2603
鉄鋼標準試料委員会ニュース	2607, 統計：産業部門のエネルギーフロー	2420
統計：温度レベル別の排熱と回収熱	2460, コラム：中流意識	2550
コラム：「鉄と鋼」は見られている	2591, コラム：筑波の不思議な道	2599
会告	N183, 日本鉄鋼協会記事	N190
次号目次案内	N192, 編集後記	2606
第 105 回講演大会講演申込用紙	会告末, 「鉄と鋼」第 68 年 (昭和 57 年) 索引	巻末, 投稿規程
		巻末

## “Tetsu-to-Hagané” Vol. 68 No. 16, December, 1982

### Contents

#### Forward

World Wide Personnel Interchanges and Researches in Japanese Universities	T. NAKAMURA	2401
---	-------------	------

#### Review

Coal Gasification Based on the Application of BOF Steel Making Technique	T. TANOUÉ	2405
--	-----------	------

#### Commentaries

High Energy Density Beam Welding	Y. ARATA	2413
Tempering Mechanism of Martensitic Carbon Steel		
—Recent Studies by Electron Microscopy and Diffraction—		
	S. NAGAKURA, Y. HIROTSU, M. KUSUNOKI, T. SUZUKI, and Y. NAKAMURA	2421

#### Technical Papers and Technical Reports

Microscopical Investigation of the High Temperature Reduction Properties of Processed Iron Ores	K. INOUE, T. IKEDA, and T. UENAKA	2431
Improvement of Softening and Melting-down Properties of Iron Ore Pellets by means of Two-layered Structure	K. INOUE, T. IKEDA, T. UENAKA, and M. KANEMOTO	2441
Circulating Flow and Mixing Time in a Molten Metal Bath with Inert Gas Injection	M. SANO and K. MORI	2451
Estimation of Oxidation of Teeming Molten Steel by Air	T. CHOH, K. IWATA, and M. INOUE	2461
The Formation Mechanism of Silica Inclusions during the Cooling of Fe-Si-O Alloy Melts	R. SAKAGAMI and T. SASAI	2471
Fully Automatic Blowing Technique in BOF Using Slag Formation Control System	Y. ÎDA, K. EMOTO, M. OGAWA, M. ÔNISHI, and H. YAMADA	2480
Influences of Hydrogen and Ingot Shape on Loose Structure in Large Ingot of Killed Steel	Y. TSUCHIDA, Y. MIYASHITA, R. IMAI, J. TAMAI, T. HIROSE, and K. TAGUCHI	2488
Phosphatability and Surface Characteristics of Silicon-Manganese Dual Phase Steel	S. MAEDA, T. ASAI, S. ARAI, and K. SUZUKI	2497
The Role of Annealing Twins in the Dynamic Recrystallization of an Austenitic Fe-Ni Alloy	E. FURUBAYASHI and M. NAKAMURA	2507

The Effect of Aged Structure on the Susceptibility to Hydrogen Embrittlement of a 13Ni-15Co-10Mo Maraging Steel	Y. KAWABE, S. MUNEKI, and J. TAKAHASHI...2514
Effect of Grain Size on High Temperature Low-cycle Fatigue Properties of Inconel 617	H. HATTORI, M. KITAGAWA, and A. OHTOMO...2521
Creep Rupture Properties of Nickel-base Heat Resistant Alloys in Two Impure Helium Environments of HTGR	F. ABE, Y. SAKAI, T. TANABE, H. ARAKI, T. SUZUKI, H. YOSHIDA, and R. WATANABE...2531
Long Term Creep Rupture Properties and Microstructure of 12% Cr Heat Resisting Steels	I.-M. PARK and T. FUJITA...2541
Effects of Oxidation-reduction Heating Conditions on Wetting Characteristics of Silicon Containing Steel with Molten Zinc	Y. HIROSE, H. TOGAWA, and J. SUMIYA...2551
Effect of C and Nb on Strength and Toughness of Al-killed Steels for Low Temperature Service	O. FURUKIMI, S. SUZUKI, and A. KAMADA...2561
Thermal Analysis of Fe-Mo Alloys by the Use of Knudsen Cell Mass Spectrometry	Y. UESHIMA, E. ICHISE, and T. MORI...2569
Influence of Background on Iron and Steel Analysis by Inductivity Coupled Plasma Atomic Emission Spectrometry	Y. ENDO and N. SAKAO...2578
Development of Fully Automatic Emission Spectrochemical Analyzer	N. FUJINO, Y. MATSUMOTO, M. YOSHIHARA, M. TARUI, I. FUKUI, N. IMAMURA, and T. HIRANO...2585

### Report of the Joint Society on Iron and Steel Basic Research

Report of High Temperature Deformation Committee	I. TAMURA...2592
--	------------------

### Letters

Technical Meeting and Steel Research in the U. S.	C. OUCHI...2594
On the Strength Limit of Ultrahigh Strength Steels	Y. KAWABE...2595
Development of New Ceramics	T. OCHIAI...2597
My Impressions of Japan	J. K. BRIMACOMBE...2598

### Report

International Symposium on "Metallurgy of Continuous-annealed Sheet Steel"	M. SUDO...2600
--	----------------

---

Report of ISIJ 104 th Meeting	2602, Abstracts	2603
News of Iron and Steel Standard Samples	2607, Columns	2420, 2460, 2550, 2591, 2599
Notice to Members	N183, Proceedings to the Institute	N190
The Editor's Postscript	2606	

---
