

Contents

Some Topics in a Historical View of the Research in Metallurgy [Foreword] .....	S. NAGASHIMA...1791
Future Problems on Recrystallization and Texture of Steel Sheets [Review] .....	H. TAKECHI...1795
Recent Development in the Research Technique on Recrystallization [Commentary] .....	M. KONISHI and M. SHIMIZU...1801
<b>Deformation Substructure and Recrystallization / Grain Boundary</b>	
Deformation Structures as Nucleation Sites for Recrystallization [Commentary] .....	K. KAWASAKI and M. MATSUO...1808
Critical Review on the Recrystallization <i>in situ</i> [Commentary] .....	E. FURUBAYASHI...1816
Grain Boundary Structure and Its Mobility [Commentary] .....	Y. ISHIDA...1819
Crystallization of Amorphous Alloys [Commentary] .....	P. H. SHINGU, R. O. SUZUKI and K. N. ISHIHARA...1828
Effect of Heat Treatment Prior to Cold Rolling on the Recrystallization Texture in Iron-Carbon Single Crystals [Technical Paper] .....	M. KONISHI, T. OBARA and T. TANAKA...1833
Rolling and Recrystallization Textures in Single Crystal of Al-0.03%Fe Alloy Rolled to (123)[41 $\bar{2}$ ] Orientation [Technical Paper] .....	T. MURAKAMI, T. TAKAHASHI and I. TAKAGI...1841
Recrystallization Behaviour of Shear Band in a Cold-rolled Copper Single Crystal [Technical Paper] .....	S. KOHARA and A. MATSUSHITA...1849
Unidirectional Recrystallization in Cold-swaged Ni Alloys [Technical Report] .....	H. HAMANAKA and I. MIURA...1857
Morphological Analysis for Primary Recrystallized Grain Structures of Pure Iron by a Nucleation and Growth Model [Technical Paper] .....	Y. MORI and I. MIURA...1864
Effect of Grain Size on the Strength of L1 <sub>2</sub> Intermetallic Compounds [Technical Paper] .....	Y. OYA, Y. MISHIMA, K. YAMADA and T. SUZUKI...1870
<b>Primary Recrystallization and Texture</b>	
Recrystallization Texture [Commentary] .....	K. ITO...1878
Influence of Solute Atoms in Solution and Precipitates on the Recrystallization in Iron and Low-carbon Steels [Commentary] .....	T. SUZUKI...1888
Recrystallization Behavior of Titanium and Its Alloys [Technical Review] .....	T. NISHIMURA and M. FUKUDA...1898
Effects of Carbon on the Recrystallization Texture of Cold Rolled Sheet Steel [Technical Paper] .....	A. OKAMOTO...1906
Recrystallization Behaviour and Textures in Extra-low Carbon Steel Sheets with Ununiform Distribution of Nitrogen Levels to the Plane Normal Direction [Technical Paper].....	K. TAGASHIRA, Y. KURODA and K. KIKUCHI...1914
The Effect of Silicon on Recrystallization Texture in Low Carbon Steel Sheets Containing Titanium [Technical Paper].....	M. SUDO and I. TSUKATANI...1922
Effect of Mn-S-O Balance on the Deep Drawability of Cold Rolled Steel Sheet [Technical Paper] .....	H. KOBAYASHI, T. SHIMOMURA and K. MATSUDŌ...1930

Effects of P and C Contents on the Recrystallization Texture and Drawability of Fe-P-C Alloys [Technical Paper].....	H. INAGAKI and J. J. LAVIGNE...1938
On the Development of {111} Grains Through the Annealing in Cold Rolled Cu-bearing Low Carbon Steel Sheet [Technical Paper]	
.....	H. ERA, M. SHIMIZU and T. HIRUTA...1946
Mechanism of {111}-Texture Development by Controlled Cooling on Continuous Annealing [Technical Paper].....	O. HASHIMOTO and K. SAKATA...1954
The Effect of Production Conditions on Grain Refinement for Stabilized Type Stainless Steel for Elevated Temperature Application [Technical Paper] .....	T. YUKITOSHI, K. YOSHIKAWA and H. TERANISHI...1962
Recrystallization Texture Formation of a Heavily Cold Rolled Cu-15at%Al Alloy [Technical Paper] .....	A. OKADA and H. NAKAE...1970
Increase of Recrystallization Rate of Pure Copper by the Trace Addition of Ti, Zr or V [Technical Paper] .....	H. SUZUKI and M. KANNO...1977

### Grain Growth

Grain Growth in Single- and Dual-Phase Steels [Commentary].....	T. NISHIZAWA...1984
Austenite Grain Refinement and Coarsening of Low Alloy Steel [Technical Review] .....	T. TSUMURA, Y. KAMADA, S. TANOUÉ and H. OHTANI...1993
Effect of Precipitation Behavior of AlN on Abnormal Growth of Ferrite Grains in Low-carbon Steel Wires [Technical Paper]	
.....	I. OCHIAI, H. OHBA, Y. HIDA and M. NAGUMO...2001
Mechanism of the Formation of Columnar Structure in Low-carbon Steel Wires during Annealing [Technical Paper] .....	I. OCHIAI, H. OHBA, Y. HIDA and M. NAGUMO...2009
Recrystallization and Grain Growth in Formation of Dual-phase Structure in Cu-4%Ti Alloy [Technical Paper] .....	S. SAJI and S. HORI...2017
Grain Growth in Duplex Stainless Steels [Technical Paper]	
.....	M. ABE, A. HIURA, K. ISHIDA and T. NISHIZAWA...2025

### Secondary Recrystallization

Mechanism of Secondary Recrystallization in Grain Oriented Silicon Steel [Commentary] .....	Y. INOKUTI...2033
The Influence of Very Finely Dispersed Carbides on Primary Recrystallization Texture in 3.3% Si Steel [Technical Paper]	
.....	Y. IIDA, K. IWAMOTO, T. GOTO and I. MATOBA...2041
Improvement of Magnetic Properties by Cu Addition in Grain-oriented Silicon Steel [Technical Paper]	
.....	T. SAKAI, T. SHIMAZU, K. CHIKUMA, M. TANINO and M. MATSUO...2049
Formation of the Goss Texture in Grain Oriented Silicon Steel Containing a Small Amount of Molybdenum [Technical Paper]	
.....	Y. INOKUTI, C. MAEDA and Y. ITO...2057
Effect of Cold Rolling on the {110}⟨001⟩ Secondary Recrystallization in 3% Silicon Steel [Technical Paper] .....	T. WADA, K. KUROKI and K. IWAYAMA...2065

### Hot Deformation and Recrystallization

Microstructural Characteristics of Dynamic Recrystallization and Its Comparison with Static Recrystallization [Commentary] .....	T. MAKI and I. TAMURA...2073
Recrystallization in Hot Working [Technical Review] .....	C. OUCHI...2081
Origin and Development of Inhomogeneous Structure in Rolled Steel Sheets [Commentary] .....	M. MATSUO...2090

Orientation Relationships between Grains during Dynamic Recrystallization of Polycrystalline Nickel [Technical Paper] .....	T. ENDO, H. FUKUTOMI and T. KISHI...2097
Effect of Rolling Strain Rate on the Grain Size of Austenite Recrystallized Immediately after Hot Rolling [Technical Paper] .....	M. MACHIDA and M. KATSUMATA...2104
Structure of Austenite of Carbon Steels in High Speed Hot Working Processes [Technical Paper] .....	T. SENUMA, H. YADA, Y. MATSUMURA and T. FUTAMURA...2112
Metallurgical Factors Influencing Microstructure of Hot Rolled Ultra Low C Steel [Technical Paper] .....	T. OKITA, K. TOMITA and K. NAKAOKA...2120
Recrystallization of Austenite of Carbon Steel in Sequential Hot-rolling [Technical Paper] .....	H. YADA, N. MATSUZU, Y. MATSUMURA and J. TOMINAGA...2128
Occurrence of Coarse Grains in Hot-rolled Low Carbon Aluminium Killed Steel Sheets Coiled at High Temperature [Technical Paper] .....	Y. TOKUNAGA, Y. MIZUYAMA, M. INUI and M. YAMADA...2136
Influence of Hot Rolled Microstructure on the Recrystallization at Surface Layer of Cold Rolled Low Carbon Steel Sheets [Technical Paper] .....	S. UCHIDA, I. SAWAI and E. KAMISAKA...2144
Formation of Deformation Band and Static Recrystallization Behavior of Hot Rolled Fe-19%Cr Ferritic Alloy [Technical Paper] .....	Y. UEMATSU, K. HOSHINO, T. MAKI and I. TAMURA...2152
Static Restoration after Hot Deformation of a 2.9% Si Steel [Technical Paper].....	T. SAKAI and M. OHASHI...2160
Superplasticity of $\delta$ -ferrite/austenite Duplex Stainless Steels [Technical Paper] .....	Y. MAEHARA...2168
Columns.....	1807, 1818, 1827, 1969, 2000, 2089, 2143, 2151, 2176, Notice to Members..... N187
The Editor's Postscript .....	2176, Proceedings to the Institute..... N198

編 集 委 員 会

委員 長 宮川 大海

編集運営委員会

荒木 透	大橋 延夫	大森 康男	加藤 健三	金尾 正雄
川合 保治	川上 公成	菊池 実	小指 軍夫	佐野 信雄
鈴木 朝夫	高石 昭吾	寺崎 富久長	松尾 宗次	松下 幸雄
森田善一郎	湯河 透	渡辺 敏		

和文会誌分科会

主 査 宮川 大海	幹事 菊池 実			
委 員 赤須 英夫	朝野秀次郎	姉崎 正治	荒木 健治	市田 敏郎
一伊達 稔	稲葉 晋一	梅田 高照	大宝 雄蔵	大谷 泰夫
