

**Contents**

**Technical Review**

- The Application of Induction Heating to Iron and Steel Industry  
.....Y. OSAKI, M. HASHIMOTO and M. TSUKADA... 173

**Commentary**

- Physical Chemistry of Hydrogen Storage Alloys .....Y. NAKAMURA and R. SUZUKI... 182

**Technical Papers and Technical Reports**

- Fundamental Study on Thermal Degradation of Coke During Rapid Heating  
.....K. TAKATANI and Y. IWANAGA... 189
- Investigation of Coke Degradation Behavior in Blast Furnace  
..... H. SHIMIZU, K. SATŌ, M. KOJIMA, Y. AMINAGA, F. NAKAMURA and Y. IWANAGA... 195
- Investigation of Sinter Degradation in Blast Furnace Using the In Situ  
Reaction Vertical Probe..... T. TAKADA, H. SOMA, T. IRITA, E. KAMISAKA, H. KIMURA,  
M. ISOYAMA and A. SUZAWA... 203
- Prediction of Remaining Life of the Steel Shell of a Blast Furnace..... Y. MORITA and K. TOKIMASA... 210
- Equilibrium between Molten Iron and  $Al_2O_3$ - $SiO_2$  Oxides  
..... T. FUJISAWA, M. SUZUKI, Y. WANIBE and H. SAKAO... 218
- Phosphorus Distribution between Molten Iron and Slags of the System  
 $CaO$ - $MgO$ - $Fe_2O_3$ - $SiO_2$  .....T. TING, H. G. KATAYAMA and A. TANAKA... 225
- On the Toughness of Boron Treated Cr-Mo Steels Tempered at High  
Temperature .....T. TSUMURA, Y. OKADA and H. OHTANI... 233
- Low Temperature Toughness of 6% Mn Steels.....M. MURAKAMI, K. SHIBATA and T. FUJITA... 241
- Effects of Ti and Si on Precipitation Behavior of Martensitic  
Stainless Steel ..... K. HOSHINO and T. UTSUNOMIYA... 249
- Detection of Hydrogen in a Steel at Elevated Temperatures by an  
Electrochemical Method .....H. TSUBAKINO, A. ANDO, T. MASUDA and K. YAMAKAWA... 257
- State Analysis of  $M_2C$  in Cr-Mo Steel by Controlled-potential Secondary  
Electrolysis Method by Use of Porous-graphite Electrode  
.....Y. FUNAHASHI, Y. KAMINO and S. HARIMAYA... 264

**Special Issue on the Creep, Superplasticity, Corrosion  
and Texture in Titanium Alloys**

- High-Temperature Deformation Characteristics of Titanium (Commentary) .....H. OIKAWA... 271
- The Effect of Volume Fractions of  $\alpha$  and  $\beta$  Phases in Ti-Al-V Alloys  
on the Superplastic Behavior (Technical Paper)  
..... Y. RO, H. ONODERA, K. OHNO, T. YAMAGATA, I. TOMIZUKA and M. YAMAZAKI... 276
- The Effect of  $\beta$ -stabilizer Content on Tensile Properties of  $\alpha$ - $\beta$  Titanium  
Alloys (Technical Paper) .....H. ONODERA, K. OHNO, T. YAMAGATA and M. YAMAZAKI... 284
- Repassivation Method to Determine Critical Conditions in terms of Electrode  
Potential, Temperature and NaCl Concentration to Predict Crevice  
Corrosion Resistance of C.P. Titanium in NaCl Solutions (Technical Paper)  
..... F. IKI and S. TSUJIKAWA... 292

Improvement of Corrosion Resistance of Titanium by Anodizing, Thermal Oxidation and PdO/TiO <sub>2</sub> Coating (Technical Paper).....	<i>H. SATOH, F. KAMIKUBO and K. SHIMOGORI...</i>	300
Hydrogen Absorption of Commercially Pure Titanium in the Solution System NaCl-HCl (Technical Paper).....	<i>T. WATANABE, H. NAITO, K. SUZUKI and Y. NAKAMURA...</i>	308
Texture of Titanium (Technical Review) .....	<i>S. NAGASHIMA...</i>	314
Deformation Resistance and Recrystallization of Commercially Pure Titanium in the High Strain Rate Hot Deformation (Technical Paper) .....	<i>T. SENUMA, H. YADA, H. YOSHIMURA, H. HARADA, T. SHINDO and S. HAMAUZU...</i>	321

**Letters**

New Management Strategy CI .....	<i>I. KITAHARA...</i>	329
Plate Tectonics and Marine Hydrothermal Ore Deposits .....	<i>A. MIZUNO...</i>	333
Some Points for Technical Writing .....	<i>N. UJIYE...</i>	339

**Reports**

Report on the Symposium on Mechanical Behavior of Rapidly Solidified Materials .....	<i>H. KIMURA...</i>	342
1985 Cryogenic Engineering Conference and International Cryogenic Materials Conference.....	<i>H. NAGAI...</i>	343

---

Abstracts.....	344,	The Editor's Postscript .....	346
Columns.....	332,	Notice to Members .....	N17
