

"Tetsu-to-Hagané"

Vol.80 No.12, December, 1994

Contents

Special Presentation	Advancement in Steel Production Technologies and Its Future Issues / S. TOSAKI	N598
Commentary	Numerical Simulation of Combustion / T. MIYAUCHI	871
Paper	Direct Induction Skull Melting of Electrical Conducting Materials Using Crucible with Insulating Coat and Its Heat Conduction Analysis / T. TAKASU, K. SASSA and S. ASAI	878
	Modeling of Gas and Liquid Flow in Two Dimensional Packed Bed and Analysis of Dropping Zone in Blast Furnace / M. MATSU-URA and Y. OHNO	884
	The Effect of Oxygen Content on the Formation Behavior of Sulfides of MnS System and the Machinability of Low Carbon Resulphurized Steel / K. ISOBE, Y. KUSANO and H. MAEDE	890
	Estimation of a Region with Solidification Structure Refined by Reduction in Semi-solid State through Solidification and Strain Analysis of a Cast / K. YASUDA, M. MINAGAWA and H. KAJIOKA	896
	Determination of Calcium in Steel by Secondary Ion Mass Spectrometry H. FUJIWARA, N. MURAO and E. ICHISE	902
	Formulation of Flow Stress of Nb Added Steels by Considering Work-hardening and Dynamic Recovery A. YOSHIE, T. FUJITA, M. FUJIOKA, K. OKAMOTO and H. MORIKAWA	908
	Formulation of the Decrease in Dislocation Density of Deformed Austenite Due to Static Recovery and Recrystallization / A. YOSHIE, T. FUJITA, M. FUJIOKA, K. OKAMOTO and H. MORIKAWA	914
	Effect of Dislocation Density in an Unrecrystallized Part of Austenite on Growth Rate of Recrystallizing Grain A. YOSHIE, T. FUJITA, M. FUJIOKA, K. OKAMOTO, H. MORIKAWA and H. MABUCHI	920
	Effect of Metallurgical Variations on Hydrogen Attack Resistance in C-0.5Mo Steel K. KIMURA, T. ISHIGURO, T. TAHARA and K. KAWANO	926
	Grain Oriented Silicon Steel Sheet with TiN Film Characterized by Ultra-Low Iron Loss Y. INOKUTI, K. SUZUKI and Y. KOBAYASHI	932
	Effects of Insoluble Carbide on Microstructure and Hardness of Martensitic Stainless Steels T. TSUCHIYAMA, S. TAKAKI and S. NAKAMURA	938
	Effect of Minor Alloying Elements on the Mean Thermal Expansion Coefficient of Fe-36% Ni Invar Alloy M. TSUDA	944
	Thermal-Elasto-Plastic Analysis on Occurrence of Liquid Zinc Induced Cracking in Bridge Girder under Hot-Dip Galvanizing / T. IEZAWA, T. YAMASHITA, S. KANAZAWA, Y. TOI and K. KOBASHI	950
