

Contents

Paper	Influence of Matrix Strength and Pore Structure on Sinter Cake Strength <i>N. OYAMA, K. NUSHIRO, Y. KONISHI, K. IGAWA and K. SORIMACHI</i>	719
	The Characteristic of a Thick Slag Layer and Mechanism of Reduction of Iron Ore in the Smelting Reduction <i>M. MATSUO, H. KATAYAMA, T. IBARAKI, M. YAMAUCHI, M. KANEMOTO and Y. OGAWA</i>	725
	Development of One-dimensional Mathematical Model for Pulverized Coal Combustion Considering Particle Dispersion / <i>M. SATO, R. MURAI and T. ARIYAMA</i>	731
	Liquid Holdup and Electric Resistivity in an Irrigated Packed Bed <i>M. NIU, T. AKIYAMA, R. TAKAHASHI and J. YAGI</i>	737
	Effect of Oxygen Flow Rate and Pressure on Metallurgical Characteristics in Bottom Blowing Converter <i>M. ABE, Y. KISHIMOTO, S. TAKEUCHI, N. BESSHO and H. SUZUKI</i>	743
	Influence of Molten Steel Flow on Inclusion Behavior near the Solidification Shell <i>K. OKAZAWA, A. KIOSE, I. SAWADA, T. TOH and E. TAKEUCHI</i>	749
	Effect of Organic Film Composition on Performance of Organic Composite Coated Steel Sheet with Excellent Lubrication / <i>T. MIYOSHI, T. OKUMA and M. YAMASHITA</i>	754
	Effect of N on the Softness of Continuous Annealed Tinplate <i>K. MARUOKA, T. KAWANO and S. SANAGI</i>	760
	Relationship between Precipitation Behavior and Creep Property of Stabilizing-treated Alloy 706 <i>T. SHIBATA, Y. SHUDO, Y. YOSHINO, T. TAKAHASHI and T. ISHIGURO</i>	765
	Recrystallization Texture and Young's Modulus of Ceramic Particle Dispersed Ferrite Steel Bars <i>S. YAMAMOTO, K. ASABE, M. NISHIGUCHI and Y. MAEHARA</i>	771
	Effects of Ni and Si on Delayed Fracture Properties of High Strength Steels with 1420 MPa Grade <i>T. SHIRAGA, N. ISHIKAWA, M. ISHIGURO, E. YAMASHITA and S. MIZOGUCHI</i>	777
	Effects of Strengthening Mechanisms on Fatigue Properties in Hot-Rolled Sheet Steels with Ferrite Matrix <i>O. KAWANO, J. WAKITA, T. NAKAMURA and Y. HAGIWARA</i>	783
	Thermal Conductivities of SUS304/PSZ Composite Materials <i>H. OHTA, Y. TOMOTA, A. KAWASAKI, R. WATANABE and Y. WASEDA</i>	789
Research Note	Thermal Diffusivity Measurements of Fe_{1-x}O by the Devised Laser-Flash Method for Small Samples <i>H. OHTA, T. AKIYAMA, K. HATORI, J. YAGI and Y. WASEDA</i>	795

ISIJ International, Vol.36 (1996), No.9, Synopses and Titles A35
