### Ironmaking

- Effects of Limestone Size on Pore Structure of Sintercake of Iron Ore  
*M. NAKANO, S. KASAMA and Y. HOSOTANI* .....711
- Coke Disintegration Behavior in the Raceway of the Blast Furnace at Pulverized Coal Injection  
*M. SATO, R. MURAI, T. ARIYAMA, A. MAKI, A. SHIMOMURA and K. MORI* .....717

### Chemical and Physical Analysis

- Determination of Trace Amounts of Arsenic, Bismuth and Antimony in Iron and Steel by  
Continuous Hydride Generation and ICP-AES or ICP-MS (Technical Report)  
*T. IMAKITA, M. INUI, K. HAMADA, M. TANIGUCHI and T. NAKAHARA* .....724

### Surface Treatment and Corrosion

- Electrodeposition Behavior and Wear Resistance of Co-Ni Alloys from Sulfamate Baths for Continuous  
Steel Casting Mold/*A. KUBOTA, Y. TSUBOTA, H. NAKANO, S. OUE, S. KOBAYASHI, T. AKIYAMA and H. FUKUSHIMA* .....728

### Transformations and Microstructures

- Field Surveys of Hydrogen Attack in 0.5Mo Steel Equipment and Subsequently Observed Metallurgical Effect  
*K. KIMURA, T. ISHIGURO, R. KAYANO, K. HATTORI, K. KAWANO and H. YAMAMOTO* .....735
- A Method of Predicting Hydrogen Attack in 0.5Mo Steel Equipment  
*K. HATTORI, K. KIMURA, H. YAMAMOTO and H. OKADA* .....743
- Formation Mechanism of {111} Recrystallization Texture in Ferritic Steels  
*M. MURAKI, T. TOGE, K. SAKATA, T. OBARA and E. FURUBAYASHI* .....751

### Mechanical Properties

- Transition from Ductile Crack Growth to Brittle Fracture of Heavily Deformed Steel Plate  
*T. HANDA, T. KUBO, K. AMANO and Y. NAKANO* .....758
- Strain Rate-temperature Dependency of Impact Tensile Properties and Ductile Fracture Behavior in  
Ductile Cast Iron/*H. YAMAMOTO, T. KOBAYASHI and H. FUJITA* .....765
- Effect of Strengthening Mechanisms on Limit Stress for Slip Bands Formation under Cyclic Deformation of  
Hot-rolled Sheet Steel/*M. KURITA, M. YAMAMOTO and K. KUNISHIGE* .....771

### New Materials and Processes

- Manufacturing Process and Mechanical Properties of Fine TiB Dispersed Ti-6Al-4V Alloy Composites  
Obtained by Reaction Sintering/*M. KOBAYASHI, K. FUNAMI and C. OUCHI* .....778
