### Instrumentation, Control and System Engineering

The Behavior of Spectral Emissivity of Metal in Oxidation Process

*K. HIRAMOTO, C. UEMATSU and Y. TAMURA* .....863

### Forming Processing and Thermomechanical Treatment

Effect of Manufacturing Conditions on the Properties of Ti-6Al-4V Seamless Pipes

*A. KURODA, T. YAMAKAWA, K. NAGASHIMA and H. KAWABATA* .....870

### Surface Treatment and Corrosion

The Effect of Si Concentration and Temperature on Initial Stage of High Temperature Oxidation of

Fe-low Si Alloys /*M. FUKUMOTO, S. HAYASHI, S. MAEDA and T. NARITA* .....878

### Transformations and Microstructures

Effects of Structure and Stability of Retained Austenite on Deep Drawability of TRIP-aided Dual-phase

Sheet Steels/*A. NAGASAKA, K. SUGIMOTO, M. KOBAYASHI, Y. KOBAYASHI and S. HASHIMOTO* .....885

### Mechanical Properties

Relationship between Fracture Origin in Torsional Fatigue and Hardness Distribution of Induction

Hardened Steels for Automotive Shafts/*T. OCHI, H. KANISAWA and T. WATANABE* .....891

Effect of Hardness Distribution on Crack Initiation Life and Fracture Life of Induction Hardened Steels

for Automotive Shafts/*T. OCHI, H. KANISAWA and T. WATANABE* .....898

### Social and Environmental Engineering

Reconstruction of "Tatara" Furnace for Direct Steelmaking and Its Operation Techniques of

Mr. Yoshizo Abe as a Leader Murage/*T. SUZUKI and K. NAGATA* .....905

Effect of the Charge of "Komori" Iron Sand on the Properties of "Tamahagane" Steel Produced by

"Tatara" Operation/*T. SUZUKI and K. NAGATA* .....911

---

ISIJ International, Vol.39 (1999), No.12, Synopses and Titles .....A25

Instructions for Authors .....A27

Tetsu-to-Hagané Index .....A31
