

"Tetsu-to-Hagané"

Vol.85 No.6 June, 1999

Contents

Fundamentals of High Temperature Processes

- Damping Behavior of Disturbance on Liquid Metal Surface Submerged in an Intermittent Alternating Magnetic Field/S.-C. LIM, K. IWAI, N. ARAI and S. ASAI427
- Bubble and Liquid Flow Characteristics in Interacting Two Water-air Vertical Bubbling Jets in a Cylindrical Vessel/K. SASAKI and M. IGUCHI432

Ironmaking

- Formation of Partially Reduced Iron by Heating Iron Ore-coal Char Composite Pellet in Oxygen Bearing Gas Flow: Reactions, Swelling Rate and Crushing Strength/Y. IGUCHI and R. KAMEI439
- Reaction Model for the Formation of Partially Reduced Iron by Heating Iron Ore-coal Char Composite Pellet in Oxygen Bearing Gas Flow/Y. IGUCHI447
- Smelting Reduction Rate of Fine Wustite Particles in a CO Gas-conveyed Bed
S. HAYASHI and Y. IGUCHI452

Casting and Solidification

- Substitute Function for Mold Oscillation Replaced by Imposition of an Intermittent Alternating Magnetic Field in a Continuous Caster/Y.-M. ZHOU, K. SASSA and S. ASAI460

Forming Processing and Thermomechanical Treatment

- Evaluation for Lubricity of Lubricant by Simulation Testing Machine Developed Newly in Hot Rolling
K. AOKI, T. SATO and A. AZUSHIMA466
- Origin of Fine Ferrite Grain Structure of Sheet Steel Hot-rolled in Ferrite Region without Lubrication
S. MATSUOKA, K. SAKATA, O. FURUKIMI and T. OBARA471

Surface Treatment and Corrosion

- Effect of Repeating Load and Dynamic Strain Aging on the Delayed Failure Strength of High Strength Steels
K. NAKASA and M. KATO479

Transformation and Microstructures

- Effect of B on the Spheroidizing Behavior of Cementite in Fe-0.8mass%C Alloy
T. YAMASHITA, A. MATSUZAKI and S. TAKAJO486

Mechanical Properties

- Improvement of Ω Method to Estimate Creep Behavior of a Mod.9Cr-1Mo Steel
K.-S. PARK, F. MASUYAMA and T. ENDO492
