### Ironmaking

- Formation Behavior of Iron Carbide in a Pellet with H<sub>2</sub>-CH<sub>4</sub> Gas Mixtures Containing Traces of H<sub>2</sub>S  
S. HAYASHI and Y. IGUCHI .....641
- Development of Burden Distribution Control with an Advanced Bell-less Top at  
Chiba No. 6 Blast Furnace/T. SATO, T. NOUCHI, K. TAKEDA and H. KAMANO .....648

### Steelmaking

- Effect of Top and Bottom Blowing Conditions on Metallurgical Characteristics in Converter  
Y. HIGUCHI and Y. TAGO .....654

### Casting and Solidification

- Characteristics of Molten Metal Motion in Rectangular Vessels under Imposition of a  
Quasi-sinusoidal Magnetic Field/Z. SU, K. IWAI and S. ASAI .....660

### Transformations and Microstructures

- Effect of B on the Behavior of Austenite Formation and Recrystallization in High Cr Ferritic  
Heat Resistant Steel/T. AZUMA, K. MIKI, Y. TANAKA and T. ISHIGURO .....667
- Transformation Behavior in Low Carbon 13% Chromium-3% Copper Stainless Steel  
T. HARA, R. UEMORI and A. MIYASAKA .....674
- Nitriding Behavior and Strengthening Mechanism of Ti Added Steels in a Rapid Nitriding Process  
K. KUSUMI, T. SENUMA, M. SUEHIRO, M. SUGIYAMA and M. MATSUO .....682

### Mechanical Properties

- Parameters for the Evaluation of Hydrogen Embrittlement of High Strength Steel  
S. TAKAGI, T. INOUE, T. HARA, M. HAYAKAWA, K. TSUZAKI and T. TAKAHASHI .....689
- Development of a Superalloy with Excellent Fatigue Property (Technical Report)  
S. KAJIWARA, K. ONISHI, S. SUMIYA, Y. TOMONO, T. KIDA and T. ISOMOTO .....697

### Physical Properties

- Iron Loss of Toroidal Core of TiN-coated Very Thin Grain Oriented Silicon Steel Sheets and  
Observation of Domain Structure by Bending/Y. INOKUTI .....703
