

## Contents

---

### Fundamentals of High Temperature Processes

- Size and Shape of a Bubble on the Upper Surface of a Horizontal Plate of Poor Wettability  
Y. MIZUNO, H. INOUE, N. SONOYAMA and M. IGUCHI .....709

- Purification of Metallurgical Grade Silicon to Solar Grade for Use in Solar Cell Wafers  
Y. KATO, K. HANAZAWA, H. BABA, N. NAKAMURA, N. YUGE, Y. SAKAGUCHI, S. HIWASA and F. ARATANI .....717

### Ironmaking

- Evaluation of the Quality of Low SiO<sub>2</sub> Sintered Ore Considering Blast Furnace Operating Conditions with  
High Rate Pulverized Coal Injection/H. NODA, K. ICHIKAWA, S. MACHIDA and N. SAKAMOTO .....725

- Mechanism of the Degradation of Coke Size in Raceway  
H. YAMAOKA and K. NAKANO .....733

### Steelmaking

- Acceleration of Copper and Tin Removal from Molten Steel by Decarburization under Reduced Pressure  
T. MATSUO .....741

- Effect of Stirring Condition and Bath Shape on Degassing Behavior in Water Model  
Y. HIGUCHI and Y. SHIROTA .....748

### Forming Processing and Thermomechanical Treatment

- Explanation of Lubrication Behavior by means of Oil Film Measurement on Rolled Sheet Surface Measured  
by Fluorescence Method/A. AZUSHIMA, M. NATSUI, S. INAGAKI and T. SUGAI .....755

### Transformations and Microstructures

- Distortion in Service of a 1.2C-1Si-17Cr-2.5Mo-0.8V Tool Steel  
Y. WATANABE, K. SUGIMOTO, I. MIWA and M. NISHIZAWA .....761

### Mechanical Properties

- Effects of Grain Size and Aging Conditions on Fatigue Crack Propagation Behavior in  
Beta Ti-22V-4Al Alloy/K. TOKAJI, K. OHYA and H. KARIYA .....769

- Acceleration of Superlong Fatigue Failure by Hydrogen Trapped by Inclusions and Elimination of  
Conventional Fatigue Limit/Y. MURAKAMI, H. KONISHI, K. TAKAI and Y. MURAKAMI .....777
