

Contents

Fundamentals of High Temperature Processes

Numerical Modeling of Grinding Rate in Granular Flow of Brittle Materials

K. CHIKAMORI, Y. KITAMURA, M. OGAWA, H. AOKI and T. MIURA73

Ironmaking

The Structural Analysis of the Rapid Heating Treated Coal Using High Temperature *in-situ* NMR Imaging

K. SAITO, I. KOMAKI and K. KATOH79

Casting and Solidification

Effects of Carbon and Ferrite-stabilizing Elements on Austenite Grain Formation for

Hypo-peritectic Carbon Steel/T. MARUYAMA, M. KUDOH and Y. ITOH86

Temperature and Deformation of Strip Caster's Mold Roll

S. KAJIWARA and K. ONISHI92

Instrumentation, Control and System Engineering

Recent Development of Motor Speed Control System and It's Application to Seamless Pipe Mill

(Technical Report)/S. FUKUSHIMA, S. YOSHIDA, H. GOTO and C. HAYASHI99

Forming Processing and Thermomechanical Treatment

Microstructures of Heavily-deformed High Carbon Steel Wires

Y. DAITOH and T. HAMADA105

Surface Treatment and Corrosion

Effect of Co and Ni on the Electrochemical Behavior of Rust Formed on the Low Alloy Steels in

Cyclic Wet and Dry Environment/T. NISHIMURA, H. KATAYAMA, K. NODA and T. KODAMA111

Electrodeposition Behavior and Properties of Iron-group Metal Alloys with W from Ammoniacal Citrate

Baths/A. KUBOTA, Y. TASHIRO, K. YAMASAKI, H. NAKANO, S. OUE, S. KOBAYASHI, T. AKIYAMA and H. FUKUSHIMA116

Transformations and Microstructures

Effects of Alloying Elements and Microstructure on Corrosion Resistance and Hardness of

Martensitic Stainless Steels/K. TAKANO, M. SAKAKIBARA, T. MATSUI and S. TAKAKI123

Mechanical Properties

Effect of Microstructural Change on Creep Deformation Behaviour and Long-term Creep Strength of

1Cr-0.5Mo Steel/H. KUSHIMA, K. KIMURA, F. ABE, K. YAGI, H. IRIE and K. MARUYAMA131

ISIJ International, Vol.40 (2000), No.2, Synopses and TitlesA3
