

Contents

Ironmaking

- Effects of Coke Reactivity and Reaction Temperature on Coke Gasification Behavior in the Blast Furnace
S. WATAKABE and K. TAKEDA467

Forming Processing and Thermomechanical Treatment

- Improvement of the Erichsen Values of Titanium Sheets Using Various Cereal Flour Lubricants
H. YOSHIMURA, T. NISHIHARA, T. NONISHI and N. INOUCHI474
- Consolidation of Sheathed Pure Iron Powders by Warm Caliber Rolling (Technical Report)
M. OTAGUCHI, S. WANIKAWA, K. TSUZAKI and K. NAGAI480

Welding and Joining

- Heat-affected Zone Cracking Susceptibility in High Nitrogen-containing Austenitic Stainless Steel
I. WOO, T. HORINOCHI and Y. KIKUCHI486

Surface Treatment and Corrosion

- Effect of Contact Cooling Length after the Laminating Rolls on Formation of Amorphous Layer of Biaxially Oriented Polyester Film in the Laminating Process (Technical Report)
H. IWASHITA, S. MORITA, A. TANAKA, N. SHIMIZU and N. MAIDA494

Mechanical Properties

- Friction Wear Property of Newly Designed β -type Biomedical Titanium Alloys in Air and Ringer's Solution
D. KURODA, M. NIINOMI, M. KUME, H. FUKUI, A. SUZUKI and J. HASEGAWA500
- Creep-fatigue Properties for Base Metals and Welded Joints of Ferritic Heat-resisting Materials
M. KIMURA, K. KOBAYASHI and K. YAMAGUCHI508

Social and Environmental Engineering

- Analysis of $C+O=CO$ Reaction in Modified Tata Steelmaking Furnace by Chemical Affinities
J. TANABE, S. KISHI, S. SATO and K. NAGATA515
