

## Contents

### Fundamentals of High Temperature Processes

- Mass Transfer from a Single Stationary Bubble in Highly Turbulent Flow ..... 715  
T. KUMAGAI and M. IGUCHI .....

### Casting and Solidification

- Prediction of the Formation of Eutectic Nb(C, N) in Large Ingot of High-Cr Ferritic Steel ..... 723  
K. MORINAKA, M. MIKAMI, K. SOEDA, Y. KADOYA, R. MAGOSHI and H. KAWAI .....

### Chemical and Physical Analysis

- Investigation on Chemical Structure of Inorganic Matter in Coal by  $^{27}\text{Al}$  MQMAS and  $^1\text{H} \rightarrow ^{27}\text{Al}$  CP/MQMAS NMR/K. KANEHASHI and K. SAITO ..... 730  
Development of Monitoring System of Dehydration of Iron Ore ..... 736  
M. NISHIFUJI, Y. FUJIOKA, K. SAITO and J. OKAZAKI .....
- Determination of Polycyclic Aromatic Hydrocarbons in Coal Combustion Gas Using High Performance Liquid Chromatography/N. KATO ..... 741

### Forming Processing and Thermomechanical Treatment

- Mathematical Modeling for the Simultaneous Prediction of Rolling Force and Microstructure Evolution in the Tandem Hot Rolling of Fine Grain Steel Sheets and Plates ..... 747  
T. MORIMOTO, R. KURAHASHI, I. CHIKUSHI and J. YANAGIMOTO .....
- Fracture Behavior of Oxide Inclusions during Rolling and Drawing ..... 755  
S. KIMURA, I. HOSHIKAWA, N. IBARAKI, S. HATTORI and T. CHODA .....

### Transformations and Microstructures

- Influence of B in Steel on the Morphology of Selectively Formed Mn-oxides on the Steel Sheet Surface during Recrystallization Annealing/Y. SUZUKI, K. KYONO, C. KATO and K. MOCHIZUKI ..... 763  
Relationship between Microstructure and Hydrogen Absorption Behavior in a V-bearing High Strength Steel/T. TSUCHIDA, T. HARA and K. TSUZAKI ..... 771  
Effects of the Prior Deformation on Dispersion of Carbide Precipitates during Isothermal Transformation in 12%Cr-0.1%C Steel/K. TAKANO, T. TSUCHIYAMA and S. TAKAKI ..... 779

### Mechanical Properties

- High Strain Rate Deformation Behaviour of Steels for Auto-Body (Review) ..... 703  
H. TAKECHI, M. TAKAHASHI, K. ITO, T. ENDO and Y. TOMOTA .....
- $10^{10}$ -cycle Fatigue Properties for SUP7 Spring Steels Tempered at 430 and 500°C ..... 786  
T. ABE, Y. FURUYA and S. MATSUOKA .....
- Optimization of Cr Content in High Cr Heat Resistant Steels on the Basis of Long Term Creep Strength ..... 793  
R. HASHIZUME, K. MIKI, T. AZUMA, T. ISHIGURO, Y. MURATA and M. MORINAGA .....
- Plastic Anisotropy in an Electrodeposited Pure Iron ..... 801  
T. MOTEGI, S. MASUYAMA, K. IIDA, T. SUZUKI, H. SATO and Y. TOMOTA .....

### Physical Properties

- Effect of Mo on Strain Aging Behavior in Ultra Low Carbon Steel Sheets ..... 808  
H. TANIGUCHI, K. GOTO, R. OKAMOTO, M. SUGIYAMA and K. YAMAZAKI .....
