Special Issue on “Behavior of Boron in Steels and its Effect on Properties”

Toward Promotion of Usage of Boron (Preface) <i>K. SHIBATA</i>	321
Surface Hot Shortness due to Copper in IF Steel and Effect of Boron and Phosphorus <i>C. NAGASAKI, H. UCHINO, K. SHIBATA, K. ASAKURA and M. HATANO</i>	322
Suppression of Secondary Ferrite Formation by Boron Addition in High Carbon Steel Wires <i>M. NAGAO, H. YAGUCHI, N. IBARAKI and K. OCHIAI</i>	329
Effect of Boron on Recrystallization Behavior in Ultra-low Carbon Martensitic Steels <i>Y. FUTAMURA, T. KAWAMURA, T. TSUCHIYAMA and S. TAKAKI</i>	335
Effects of Boron Addition on Heating Processes of Martensite in 0.1C-9Cr-3W-3Co Steels <i>S. KOBAYASHI, K. TOSHIMORI, K. NAKAI and Y. OHMORI</i>	342
Effect of Combined Addition of W, Nb and V with B on the Creep Strengthening in High Cr Ferritic Heat Resistant Steel <i>T. AZUMA, K. MIKI, Y. TANAKA and T. ISHIGURO</i>	349
Effect of Boron Addition on Strain Aging Properties of Ferritic Steels <i>T. ABE and H. ONODERA</i>	357
Effect of Boron on Microstructure and Toughness of Simulated HAZ of Low Carbon Bainitic Steel <i>H. HATANO</i>	362
Establishment of the Observing System for Boron in Steels by Alpha-particle Track Etching Method Using JAERI Reactor (Technical Report) <i>K. ASAKURA, K. SHIBATA, H. SAWAHATA, M. KAWATE and S. HARASAWA</i>	369
Search for New Recommendable Film for Alpha-particle Track Etching Method (Technical Report) <i>K. ASAKURA, K. SHIBATA, S. HARASAWA, H. SAWAHATA and M. KAWATE</i>	375
