### Fundamentals of High Temperature Processes

- The Model Experiment on Coagulation of Inclusions by Imposing Electromagnetic Vibration  
*T. KAMEYAMA, S. NIWA, J. PARK, T. MATUMURA, K. SASSA and S. ASAI* .....623
- Viscosity Change of Molten Oxides by Electric Current Imposition  
*K. OKAZAWA, M. YAMANE and Y. FUKUDA* .....629
- Characteristics of Flotation, Sedimentation and Entrainment of Particle in Agitated Liquid  
*S. SHIMASAKI, T. WADA and S. TANIGUCHI* .....637

### Casting and Solidification

- Effect of Molten Steel Flow on Initially Solidified Shell in Ultra Low Carbon Steel  
*H. YAMAMURA, K. SASAI, Y. UESHIMA and Y. MIZUKAMI* .....645

### Forming Processing and Thermomechanical Treatment

- Improvement of Ridging Behaviour of Ferritic Stainless Steel by Spread Rolling Method  
*S. KANEKO, H. UTSUNOMIYA, Y. SAITO, T. SAKAI and N. FURUSHIRO* .....653
- Influence of Water Vapor on Surface Hot-shortness of Cu-Sn Containing Steel  
*M. HATANO and K. KUNISHIGE* .....659
- Texture and Microstructure of Ultra-low Carbon IF Steel Strip Processed by Conshearing  
*Y. OKAMURA, H. UTSUNOMIYA, T. SAKAI and Y. SAITO* .....666

### Transformations and Microstructures

- Effect of Silicon Content on Tempered Hardness, High Temperature Strength and Toughness of Hot Working Tool Steels/*M. UMINO, T. SERA, K. KONDO, Y. OKADA and H. TUBAKINO* .....673
- Improvement of Hot Wear Characteristic of High Speed Tool Steel Roll by Increase in Cr and Mo Contents  
*K. ICHINO, S. ISHIKAWA, Y. KATAOKA and T. TOYOOKA* .....680
- Twin Morphology Formed on Goss Si-steel Single Crystal  
*Y. INOKUTI, H. MORITA and M. TOMOBUCHI* .....686
- Precipitation of Z-phase and Precipitation Sequence during Creep Deformation of Mod.9Cr-1Mo Steel  
*K. SUZUKI, S. KUMAI, H. KUSHIMA, K. KIMURA and F. ABE* .....691

### Mechanical Properties

- Creep Damage Estimation based on the Softening Behavior of 10Cr-1Mo-1W-VNbN Steel  
*R. ISHII, Y. TSUDA, K. FUJIYAMA, K. KIMURA and K. SAITO* .....699
- The Influence of Chemical Composition and Temper Heat-treatment on Strength and Impact Toughness in Ni-Cr-Mo-V Steels/*Y. YOSHIOKA, H. ITOU, Y. TANAKA and Y. IKEDA* .....705
- Significance of Size and Type of Inclusions on Giga-cycle Fatigue in High-strength Steels  
*T. ABE, Y. FURUYA and S. MATSUOKA* .....711
- Effects of Retained Austenite on Tension-Compression Fatigue Properties of Cold Work Tool Steel  
*D. YOKOI, N. TSUJII, Y. YOKOYAMA and K. FUKAURA* .....718

### Physical Properties

- Low- and High-cycle Fatigue Properties of Ultrafine-grained Low Carbon Steels  
*T. SAWAI, S. MATSUOKA and K. TSUZAKI* .....726
