

Contents

Ironmaking

Reduction Behavior of Wustite Compact with Pore Blockade by Liquid Slag

M. NAKAMOTO, H. ONO-NAKAZATO, H. KAWABATA and T. USUI1

Casting and Solidification

Fabrication of Lotus-type Porous Stainless Steel by Continuous Zone Melting Technique

T. IKEDA, T. AOKI and H. NAKAJIMA9

Chemical and Physical Analysis

Multielement Analysis of Steel Samples by Laser Ablation and Low-pressure Helium-ICP-MS

H. HAYASHI, T. NAGAYASU, S. FURUZAWA and M. HIRASHI17

Ion Exchange Separation Using a Masking Reagent for the Determination of Trace Impurities in Iron and Steels by ICP-OES (Technical Report)

H. YAMAGUCHI, S. ITOH, S. HASEGAWA, K. IDE and T. KOBAYASHI48

Mechanical Properties

Superplastic Behavior in Mg-Al Alloy, AZ91D Grain Refined by Isothermal-rolling

Y. TORISAKA, S. FUDETANI and M. HIROHASHI21

Microstructure and Grain Boundary Precipitates in 9~12% Cr Ferritic Heat-resisting Steels

M. KIMURA, K. YAMAGUCHI, M. HAYAKAWA and K. KOBAYASHI27

Internal Fracture of Nickel-base Alloy718 in High Temperature Fatigue

K. KOBAYASHI, K. YAMAGUCHI, M. HAYAKAWA and M. KIMURA33

Alloy Design and Material Properties of Ni-based Superalloy with Low Thermal Expansion for Steam

Turbine/R. YAMAMOTO, Y. KADOYA, H. KAWAI, R. MAGOSHI, S. UETA, T. NODA and S. ISOBE37

Social and Environmental Engineering

Effect of Phosphorus Content of Nanban-tetsu on Forgeability of Japanese Sword Making

T. SUZUKI43

ISIJ International, Vol.44 (2004), No.1, Synopses and TitlesA1
