

"Tetsu-to-Hagané"

Vol.90 No.12 December, 2004

Contents

Steelmaking

- Application of Magnetohydrodynamics to Steelmaking Process (Review)
T. TOH983

Fundamentals of High Temperature Processes

- Carbothermic Reduction of Cr_2O_3 and Fe_2O_3 under Nonisothermal Condition
K. OKUMURA, T. SUGIMURA, M. KUWABARA and M. SANO992

Ironmaking

- Gaseous Reduction Behavior of Partial Reduced Iron Ore Hot Briquettes with CO-CO_2 Mixture
S. HAYASHI, N. TOMITA and Y. IGUCHI999

Chemical and Physical Analysis

- Determination of Traces of Arsenic and Antimony in Certified Reference Steel Samples
by Neutron Activation Analysis with Multiple Gamma-ray Detections
A. KIMURA and M. OSHIMA1004

Forming Processing and Thermomechanical Treatment

- Growth and Disappearance of Transversal Cracks on Stainless Steel Wire in Wire Drawing
T. SHINOHARA and K. YOSHIDA1010

Mechanical Properties

- Work Hardening Behavior of IF and Low Carbon Steel Sheets under Biaxial Tension
S. IKEDA and T. KUWABARA1016
- Influence of Microstructure on Rolling Contact Wear in High Carbon Steels
M. UEDA, K. UCHINO and T. SENUMA1023
- Effect of Cementite Decomposition on Delamination in High Carbon Steel Wires
T. TARUI and N. MARUYAMA1031
- Residual Stress Measurement by Neutron Diffraction inside a Steel Bar Quenched after Induction
Heating/H. TOKUDA, Y. TOMOTA, T. SUZUKI, K. KAWASAKI, A. MORI, N. MINAKAWA and Y. MORII1038
- Tensile Deformation Behavior at High Strain Rate for Ultrafine-grained Ferrite-cementite Steels
N. TSUCHIDA, Y. TOMOTA and K. NAGAI1043

-
- ISIJ International, Vol.44 (2004), No.12, Synopses and TitlesA44
- Instructions for AuthorsA49
