

"Tetsu-to-Hagané"

Vol.90 No.7 July, 2004

Contents

Fundamentals of High Temperature Processes

In Situ Observation of Coke Gasification and Behavior of Ash

H. TAKAMARU, Y. KASHIWAYA and K. ISHII472

Forming Processing and Thermomechanical Treatment

Recent Developments in Tube Hydroforming Technology (Review)

S. FUCHIZAWA451

Welding and Joining

Influence of HAZ Microstructure on Reheat Cracking Susceptibility in Ni Free Type Quenched-tempered

High Strength Steel/M. NAKAMURA and H. KAWAMURA480

Surface Treatment and Corrosion

Effects of Si, Mn Contents on the Descalability Behavior of the Scale of Annealed Austenitic Stainless

Steels/T. MATSUHASHI, H. OKADA and S. KIYA487

Effect of Cu and Sn on Phosphatability of Cold-rolled Steel Sheets

K. OSAWA, K. HAMADA, K. MINE, K. TOMITA and Y. TSUCHIYA494

Transformations and Microstructures

Effect of Silicon Content and Prior Structures on Microstructures of Nitrided Hot Working Tool Steels

M. UMINO, T. SERA, Y. OKADA and H. TUBAKINO502

Recrystallisation of Heavily Cold Rolled RD // $\langle 011 \rangle$ Structure in BCC Iron

H. HOMMA, S. NAKAMURA and N. YOSHINAGA510

Mechanical Properties

Development of Ni-based Single Crystal Superalloys for Power-generation Gas-turbine Blades

R. HASHIZUME, A. YOSHINARI, Y. MURATA and M. MORINAGA518

Toughness Evaluation by Means of Side-notched Charpy Test

Y. HAGIWARA, S. TSUKAMOTO, T. OTANI, G. ARAKANE and K. MATSUDA526

New Materials and Processes

Recent Applications, Research and Development in Titanium and Its Alloys (Review)

M. NINOMI462
