### Fundamentals of High Temperature Processes

- Electrochemical Analysis on Reaction between Iron and Slag by AC Impedance Method  
*K. UEDA* .....533

- Slip Velocities of Solid Particles in Turbulently Agitated Liquid  
*S. SHIMASAKI, T. WADA and S. TANIGUCHI* .....538

### Ironmaking

- Influence of Limestone and Coke Breeze Distribution in the Quasi-particle on Permeability during  
Sintering and Sinter Quality/*N. OYAMA, K. IGAWA, K. TAKEDA, T. ARIYAMA and T. JINNO* .....546

### Chemical and Physical Analysis

- Analytical Conditions for Quantitative Analysis of Lead in Steels in Direct-current or Radio-frequency  
Glow Discharge Optical Emission Spectrometry (Technical Report)/*K. WAGATSUMA* .....593

### Forming Processing and Thermomechanical Treatment

- Formation of Fine Ferrite Grains during Hot Deformation of Cu Bearing Steel  
*K. HASE, Y. HIRAI, T. HOSHINO, A. MATSUZAKI, K. AMANO and S. TAKAKI* .....554

### Surface Treatment and Corrosion

- Atmospheric Corrosion Monitoring in Each Part of Model Structure Using AC Impedance Method  
*H. KATAYAMA, H. MASUDA, K. NODA and M. YAMAMOTO* .....562

### Transformations and Microstructures

- Rafted Structure of  $\gamma'$  Phase in Polycrystalline Nickel-based Superalloy, IN-100, Subjected to Creep  
Deformation/*N. MIURA, Y. KONDO and T. MATSUO* .....567

- Early Stage of Deformation in a Bainitic Steel  
*K. NAKAI, T. MEGUMI, S. KOBAYASHI, M. HAMADA and Y. KOMIZO* .....574

### Mechanical Properties

- Development of TRIP-aided Cold Rolled Steel Sheets with the Excellent Stretch-flange Formability  
*T. KASHIMA and K. SUGIMOTO* .....581

- Suppression of Delamination in Hyper-eutectoid Steel Wires by Multi Skin-pass Drawing  
*M. NAGAO and T. KURODA* .....588
