

**Contents**

---

**Ironmaking**

**Investigation on the Dioxin Emission from a Commercial Sintering Plant**

S. KASAMA, Y. YAMAMURA and K. WATANABE ..... 745

**Functional Forms of Carbon and Chlorine in Dust Samples Formed in the Sintering Process  
of Iron Ores**

N. TSUBOUCHI, E. KASAI, K. KAWAMOTO, H. NODA, Y. NAKAZATO and Y. OHTSUKA .....751

**Analysis of Visibility of Exhaust Gas in the Iron Ore Sintering Plant**

S. KASAMA, H. KITAGUCHI, Y. YAMAMURA, K. WATANABE and A. UMEZU .....757

**Casting and Solidification**

**Development of Optimum Argon Shrouding System between Ladle and Tundish**

N. KASAI, H. YAMAZOE and M. IGUCHI .....763

**Forming Processing and Thermomechanical Treatment**

**The Neck Growth Model in a Smooth Round Tension and a Circumferentially Notched Tension**

K. ENAMI, K. NAGAI, S. TORIZUKA and T. INOUE .....769

**Mechanical Properties**

**New Hot-rolled High Carbon Steel Sheets with Excellent Stretch-flange Formability**

T. FUJITA, N. KARIYA, N. NAKAMURA and H. NAKATA .....775

**Social and Environmental Engineering**

**Effect of Steel-making Slag Addition on Growth of the Diatom *Skeletonema costatum*  
and the Dinoflagellate *Alexandrium tamarense***

M. SUZUKI and T. YAMAMOTO .....783
