Special Issue on “Microstructures Controlling Yield Strength of Steels”

Relation between Microstructure and Yield Stress in Steels (Preface) S. TAKAKI	789
Effect of Solute Copper on Yield Strength in Dislocation-strengthened Steels J. SYARIF, K. NAKASHIMA, T. TSUCHIYAMA and S. TAKAKI	790
Evaluation of Yield Strength Taking Account of Particle Size-distribution in Particle Dispersion Strengthened Ferritic Steel T. KITaura, H. HIDAKA, T. TSUCHIYAMA and S. TAKAKI	796
Analysis of Microscopic Yielding Behaviour of Carbon Steel under Macroscopic Loading M. AKIYAMA, K. MATSUI and K. TERADA	803
Effect of Microstructure on Deformation Behavior of Ferrite–Bainite Steels N. ISHIKAWA, H. SUEYOSHI, S. ENDO and N. SHIKANAI	809
Multi-scaled Heterogeneity and Influence of Texture on Plastic Flow of Pearlite Steels S. MOROOKA, T. SUZUKI, Y. TOMOTA, Y. SHIOTA and T. KAMIYAMA	816
Microstructure and Deformation Behavior of Nitrogen Bearing Austenitic Steels Evaluated by Neutron Scattering Analyses K. IKEDA, Y. TOMOTA, J. SUZUKI, A. MORIAI and T. KAMIYAMA	822
Effect of Wire Diameter and Grain Size on Tensile Properties of Austenitic Stainless Steel Wire T. FUKUMARU, H. HIDAKA, T. TSUCHIYAMA and S. TAKAKI	828
The Influence of Deformation Twinning on Yield Strength in Cold-rolled FCC Ferrous Alloy T. MORIKAWA, T. MORONAGA and K. HIGASHIDA	834
Formation of ($\alpha+\gamma$) Nano-duplex Structure by Severe Plastic Deformation in an SUS316L Stainless Steel H. FUJIWARA, H. INOMOTO and K. AMEYAMA	839

ISI International, Vol.45 (2005), No.11, Synopses and Titles	A36
