

Contents

Ironmaking

- Rapid Reduction of Fine Iron Ore Transported with CH₄ Gas**
Y. NOMURA, H. NAKAGAWA, T. MAEDA, K. NISHIOKA and M. SHIMIZU521

Steelmaking

- Hot Metal Dephosphorization Behavior by Sintered Dephosphorization Agent Containing Al₂O₃**
M. ISHIKAWA, T. MATSUO and T. KAWAGUCHI528
- The Development of Internal Defects Evaluation Method in Continuous Casting Slabs by High Frequency Supersonic Flaw Detection Technique**
N. KASAI, H. OOKUBO and T. NISHI537
- Water-model Experiments on Gas and Liquid Flow in the Continuous Casting Immersion Nozzle**
N. KASAI and M. IGUCHI546

Casting and Solidification

- Future Developments of the In-Rotating-Liquid Spinning Process~Giving an Example of the Spinning in Gas Followed by Winding in Rotating Liquid (Review)**
Y. Ono511

Forming Processing and Thermomechanical Treatment

- Finite Element Analysis of Forming Limit of High-strength Steel Sheets Using Ductile Fracture Criterion**
H. TAKUDA, T. KANIE, E. ISOGAI and T. YOSHIDA553

Surface Treatment and Corrosion

- Influence of Phosphorus, Sulphur and Oxygen on 65% Nitric Acid Corrosion Resistance of Super High-clean SUS316L Stainless Steel**
K. SAKURAYA, T. KIMURA and S. IWASAKI560

Transformations and Microstructures

- Microstructural Change near Retained Austenite Interface during the Formation Process of White Etching Area under Rolling-slip Contact**
H. HARADA, T. MIKAMI, A. YAMAMOTO and H. TSUBAKINO567

ISIJ International, Vol.45 (2005), No.6, Synopses and TitlesA19
