

Contents

Forming Processing and Thermomechanical Treatment

- Surface Hardening Treatment for Titanium and Titanium Alloys in Use of CO₂ Gas
Y. Z. KIM, R. SAHARA, T. NARUSHIMA, Y. IGUCHI and C. OUCHI1

Surface Treatment and Corrosion

- The Pickling Process of Hot Rolled Ferritic Stainless Steel in Sulfuric Acid and Nitric Acid Solution
M. TSUCHINAGA and S. ABE10
- Structure and Polarization Property of Zn–Nb Films Formed on Steel Sheet by Sputtering
H. KUBOYAMA, H. NAKANO, S. OUE, H. FUKUSHIMA, M. MASUDA and S. HASHIMOTO16
- The Influence of Additional Ni and Cu in Steel on the Galvanizability and Galvannealing Rate
of Si–Mn Bearing Steels
Y. TAKADA, M. SUEHIRO, M. SUGIYAMA and T. SENUMA21

Mechanical Properties

- Effects of Nitrogen, Niobium, Phosphorous and Carbon on the Mechanical Properties
of Aged 316LN Stainless Steels at the Cryogenic Temperature, 4K
K. ISHIO, K. HAMADA and H. NAKAJIMA30
- Effects of Strain Hardening Behavior on the Strain Path Dependence of Forming Limit Stresses
in a Steel Tube
K. YOSHIDA and T. KUWABARA36
- Effects of Strengthening Mechanisms on Fatigue Properties of Ultrafine Ferrite–Cementite Steels
Y. FURUYA, S. MATSUOKA, S. SHIMAKURA, T. HANAMURA and S. TORIZUKA46
