### Fundamentals of High Temperature Processes

- Water Model Experiment on the Motion of a Non-spherical Particle in Molten Steel Based on Simultaneous Visualization of the Particle and Surrounding Flow  
G. MATSUI and M. IGUCHI .....643
- Reaction Mechanism between Solid CaO and  $\text{FeO}_x\text{-CaO-SiO}_2\text{-P}_2\text{O}_5$  Slag at 1573K  
T. HAMANO, S. FUKAGAI and F. TSUKIHASHI .....649
- In-situ* Observation of the Reduction of Iron Oxides by Solid State Carbon in TEM (Note)  
N. ISHIKAWA, K. FURUYA, T. AOYAGI, N. MITSUOKA and T. INAMI .....690

### Casting and Solidification

- Flux Film in the Mold of High Speed Continuous Casting  
M. HANAO and M. KAWAMOTO .....655

### Forming Processing and Thermomechanical Treatment

- Deformation Analysis of Longitudinal Surface Micro-defects in Flat Rolling  
N. YUKAWA, Y. YOSHIDA and T. ISHIKAWA .....661

### Surface Treatment and Corrosion

- Numerical Analysis of Cathodic Protection Distance for Steel-Zinc Couple under Thin Layer Electrolytes  
N. OKADA, M. TAKEBAYASHI, M. MATSUMOTO, M. KIMOTO and T. KODOU .....667
- Cross Cut Test for Coated Steel Plate  
Y. NAKAMURA, M. ADACHI, K. FUJITA, Y. TACHIBANA, T. IIDA and Y. URAHAMA .....676

### Social and Environmental Engineering

- Separation and Recovery of Phosphorus from Steelmaking Slags with the Aid of Strong Magnetic Field  
K. YOKOYAMA, H. KUBO, K. MORI, H. OKADA, S. TAKEUCHI and T. NAGASAKA .....683

- 
- ISIJ International, Vol.46 (2006), No.11, Synopses and Titles .....A36
-
