

Contents

Fundamentals of High Temperature Processes

- Attachment of an Annular Bubble to an Orifice Placed in Gas-Liquid Two-phase Flow and Velocity of Liquid Flow (Note)
D. MAEDA and M. IGUCHI572
- Attachment of an Annular Bubble to an Orifice Placed in Gas-Liquid Two-phase Flow and Loss Coefficient of Orifice (Note)
D. MAEDA and M. IGUCHI575

Ironmaking

- Effects of Slag Content and Composition on the Reducibility of Iron Oxide Including CaO-SiO₂-Fe₂O Slag
H. ONO-NAKAZATO, K. OKADA and T. USUI539

Casting and Solidification

- Water-model Experiment on Melting Powder Trapping by Vortex in the Continuous Casting Mold
N. KASAI and M. IGUCHI544

Surface Treatment and Corrosion

- Effect of Crystal Structure on the Lightness of Zinc Electroplated Steel Sheet
M. KIMOTO, M. YONEMURA, H. YASUDA and Y. UMAKOSHI551
- Assessment of the Zn/Al Metal Spraying Technology without Blast Treatment (Technical Report)
K. SONOYA567

Transformations and Microstructures

- Measurements of Volume Fraction and Carbon Concentration of the Retained Austenite by Neutron Diffraction
S.-C. CHEN, Y. TOMOTA, Y. SHIOTA, Y. TOOMINE and T. KAMIYAMA557
- Development of Fe-Mn-Si-Cr Shape Memory Alloy Machining Chips Reinforced Smart Composite
T. WAKATSUKI, H. SATO, Y. WATANABE and T. MARUYAMA562

ISIJ International, Vol.46 (2006), No.9, Synopses and TitlesA30
