

Contents

Fundamentals of High Temperature Processes

Characteristics of Adhesion and Removal of Suspended Particle in Liquid by Bubble
—Effect of Particle Contact Angle—

H. ARAI, N. IIDA, K. MATSUMOTO, S. TANIGUCHI, T. NAKAOKA, K. KUNII and K. SAKAMOTO1

Ironmaking

The Post-reaction Strength of Catalyst-doped Highly Reactive Coke

S. NOMURA, M. NAITO and K. YAMAGUCHI9

Effects of Atmospheric Gas Composition and Temperature on the Gasification of Coal in
Hot Briquetting Carbon Composite Iron Ore

Y. UEKI, M. KANAYAMA, T. MAEDA, K. NISHIOKA and M. SHIMIZU18

Forming Processing and Thermomechanical Treatment

Grain Refinement and High-temperature Deformation Behaviour of Sub-zero Worked and
Annealed SUS316L

M. KATOH and Y. TORISAKA23

Welding and Joining

In-situ Observation of Nucleation and Growth of Acicular Ferrite in Weld Metal

H. TERASAKI, T. YAMADA and Y. KOMIZO27

Surface Treatment and Corrosion

X-ray and Nanoindentation Analyses on Plastic Deformation of Galvannealed Coating

J. MACHIDA and T. TAKASUGI33

Codeposition Behavior of Impurity during Electroplating in Sulfate Bath in the Presence of
Fe Ions

H. NAKANO, S. OUE, S. HISANO, S. KOBAYASHI and H. FUKUSHIMA39

The Effect of Carbon Activity and Base Gas Compositions for Carbonitriding of SUJ2 Steel

C. OHKI44

Mechanical Properties

Stabilization in Strength of Hot-rolled Sheet Steel Strengthened by Nanometer-sized Carbides

Y. FUNAKAWA and K. SETO49

New Materials and Processes

Evaluation of Antibacterial Ability of Some Pure Metals

Y. MIYANO, K. KOYAMA, K. R. SREEKUMARI, Y. SATO and Y. KIKUCHI57

Social and Environmental Engineering

Accounting for Steel Stock in Japan

I. DAIGO, Y. IGARASHI, Y. MATSUNO and Y. ADACHI66

ISIJ International, Vol.47 (2007), No.1, Synopses and TitlesA1
