

Contents

Fundamentals of High Temperature Processes

Morphology Control of Copper Sulfide in Strip Casting of Low Carbon Steel

Z. LIU, Y. KOBAYASHI, K. NAGAI, J. YANG and M. KUWABARA655

Casting and Solidification

Observation of Ni-C and Ni-C-Mg Alloys Solidified Ultra-rapidly and Carbon Phases in the Alloys

K. WASAI, S. OISHI, N. SHINOZAKI and H. ERA664

Influence of Substrate Surface Morphology and Thermal Diffusion on Initial Stage of Rapid Solidification for Steel

M. MIYAZAKI, H. YAMAMURA, W. OHASHI and T. MATSUMIYA673

Forming Processing and Thermomechanical Treatment

Influence of Lubricant Factors on Coefficient of Friction and Clarification of Lubrication

Mechanism in Hot Rolling

A. AZUSHIMA, W. D. XUE and Y. YOSHIDA681

Surface Characteristics of Stainless Steel Sheets Cold-rolled with Rolls Polished in Axial and Other Directions

H. YAMAMOTO, H. IKUTA and F. SHOJI687

Test Production of Ultrafine-grained Steel Plate Using Large-scale Forging Press

T. INOUE, T. OCHIAI, F. YIN and K. NAGAI693

Surface Treatment and Corrosion

Electrodeposition of Zn-V Oxide Composite from Sulfate Solutions

H. NAKANO, S. OUE, D. KOZAKI, S. KOBAYASHI and H. FUKUSHIMA703

Mechanical Properties

Analysis of Flange Wrinkle in Square-shell Deep Drawing of Anisotropic Sheet

T. OHWUE, K. HASHIMOTO, Y. KURIYAMA and K. USHIODA709

ISIJ International, Vol.47 (2007), No.11, Synopses and TitlesA37
