

Contents

Steelmaking

- Decarburization Behavior of Molten Steel Using Top-blown Oxygen Jet under Reduced Pressure
I. SUMI, T. KISHIMOTO, S. NABESHIMA, H. MATSUNO and Y. KISHIMOTO265

Casting and Solidification

- Prevention of Surface Cracks on Billets by Refining Austenite Grain of Bloom Surface before Rolling
Y. OHBA, S. KITADE, H. SHIMOGUCHI and I. TAKASU271
- Improvement of Transition Part of Slab Surface Cleanliness with In-mold Electromagnetic Stirring
J. NAKASHIMA, J. FUKUDA, A. KIYOSE, T. KAWASE, Y. OHTANI, M. DOKI and K. FUJISAKI281

Chemical and Physical Analysis

- Relative Sensitivity Factor of Nitrogen in Steel by Helium/Glow Discharge-Mass Spectrometry
(Technical Report)
S. ITOH, N. OGURO and T. KOBAYASHI336

Forming Processing and Thermomechanical Treatment

- Finite Elemental Analyses of Forming Ultra Heavy Gauge Square Tube Using Hot Sizing Mill
T. NAGAHAMA, K. KENMOCHI and K. SAKATA289

Surface Treatment and Corrosion

- Evaluation of Interfacial Fracture Toughness between Paint and Steel Sheet in Paint-coated
Steel Sheet System Using DCB Specimen
K. HARA and M. IMANAKA296
- Studies on Adhesive Properties of Steel Coating—Examinations of Influenced Factor between
Steel Treatment Methods and Coating Thickness—
H. MIYAIRI, Y. KISHIMA and M. NAGAI303

Mechanical Properties

- Effect of Stress Ratio on Fatigue Properties for Ti-6Al-4V Alloy
E. TAKEUCHI, Y. FURUYA, N. NAGASHIMA and S. MATSUOKA309
- Forming Limit Prediction and Work-hardening Behavior under Strain-path Changes
S. YONEMURA, A. UENISHI, S. HIWATASHI, N. SUZUKI and M. USUDA317

Physical Properties

- Temper Embrittlement Characteristic of Cr-Mo-V Steel Steam Turbine Rotors in Long Term Service
H. UEMURA and M. KOHNO324

Social and Environmental Engineering

- Measurement of Concentrations of Tramp Elements in Shredder Scrap and Automobile Shredder Residue
(ASR) and Their Mass Balance Analyses
Y. MATSUNO, Y. IGARASHI, S. HAYASHI, M. TSURUOKA, K. OTABE and T. NAGASAKA330
