

## Contents

---

### Fundamentals of High Temperature Processes

- Oxygen Exchange Reaction between CO<sub>2</sub>-CO Gas and Molten Oxide Containing Iron Oxide  
X. HU, H. MATSURA and F. TSUKIHASHI .....341

### Steelmaking

- Origin of Nonmetallic Inclusions in Ladle Transition part of Continuously Cast Slabs  
J. NAKASHIMA, K. MIYAZAWA, K. IMOTO and T. HIROMATSU .....348
- Shape Control of Alumina Inclusions by Double Calcium Addition Treatment  
Y. ITO, S. NARA, Y. KATO and M. SUDA .....355

### Casting and Solidification

- Influence of Mold Flux Basicity to the Surface Quality of Ultra-Low-Carbon Steel Slabs  
M. HANAO and M. KAWAMOTO .....362

### Forming Processing and Thermomechanical Treatment

- Tribological Condition and Evaluation for Creation Process of Ultra-fine Grained Steels  
A. AZUSHIMA, W. XUE and Y. YOSHIDA .....367

### Welding and Joining

- Electro Magnetic and Heat Conductive FE Analysis on High Frequency Tube Welding Process  
T. OKABE, K. KENMOCHI and K. SAKATA .....373

### Surface Treatment and Corrosion

- High-temperature Oxidation and Subscale Morphology of Si Containing Steels  
K. KUSABIRAKI, R. WATANABE, T. IKEHATA, M. TAKEDA, T. ONISHI, X. GUO and H. ANADA .....379
- Preparation of Highly Oxidation-resistant Surface for Stainless Steel in Atmosphere Containing  
Water Vapor by Molten Salt Electrodeposition  
M. FUKUMOTO, Y. MATSUDA and M. HARA .....386

### Transformations and Microstructures

- Influence of Heat Treatment on Formation Behavior of Boron Nitride Inclusions in  
P122 Heat Resistant Steel  
K. SAKURAYA, H. OKADA and F. ABE .....392

### Mechanical Properties

- The Effect of Zr and Nb Addition on Tensile Property of Fe<sub>3</sub>Al-based Intermetallic Alloys  
N. MATSUMOTO, Y. KANENO and T. TAKASUGI .....400
